CHICAGO.

UP COUNTRY.

We print on the third page of to-day's paper an animated letter from an up-country correspondent, that is worth reading.

"OLD ABE."

Hon. Abe Lincoln passed through this city yesterday *en route* for Milwaukee, where he is to deliver the annual address before the Wisconsin State Agricultural Society. We captured the manuscript and shall print the address in the PRESS AND TRIBUNE of to-morrow.

CALIFORNIA.

The Republicans and Anti-Lecompton men of California have fused at last; but possibly so late that they will not save themselves from defeat thereby. They *hope* to do what they might certainly have done, had they been wiser a month ago. As it is, Baker and McKibben will give the common enemy an awful scare, if nothing more.

THE CHICAGO AND NORTHWESTERN RAILWAY.

On the first of July last the directors of the Chicago and Northwestern Railway commenced the work of finishing up their line, fifty-six miles, between Janesville and La Crosse Junction. With side tracks, connections with other roads, &c., the whole amount of road to be built was sixty-three miles. The road had nearly all been previously graded, but by many it was supposed impossible to complete the work by the first of October, when the Company determined it should be finished. The late severe storm on the lake has delayed its completion five days beyond the specified time, as several vessels loaded with iron for the road were out in the gale. They have all now safely arrived, and the line will be completed on Wednesday next. A grand opening celebration is set down for the 12th, and the road will be opened for business and regular freight and passenger trains will commence running on the following Monday, October 17th.

It is impossible to estimate the value of this new avenue of commerce to our city. It passes directly through the heart of Wisconsin, and will afford our merchants facilities for direct trade with the citizens of that State which must prove of the greatest advantage to every department of business. Our dealers can not only reach the fine agricultural portions of the State, but from Fond du Lac, steamers on Lake Winnebago and the Wolf and Fox rivers will give us access to the lumber districts, and doubtless a large trade will spring up between them and our city. We trust our merchants will be wide awake to the advantages which the opening of this line will confer upon the city, and that they will adopt efficient means to secure them.

THE UNITED STATES MINISTER NEEDLESSLY COMMITTING HIS GOVERNMENT.

[Correspondence of the N. Y. Evening Post.]

SHANGHAI, July 15, 1859.

So far as we may be allowed to judge of the future from the events of the past, this ancient and interesting Chinese empire is likely, for some time to come, to be the theatre towards which the eyes of the civilized world will be turned with the most intense interest. England France and the United States, after weary years of war and diplomacy, had just succeeded to make a treaty of peace and commerce with the imperial government at Pekin that was supposed to secure to western trade and civilization an entrance into this hitherto sealed country. The superstitions that for ages had been crystalizing into a shell that seemed utterly impervious to all impressions from without, was considered broken, so that the religion and commerce of western nations only waited the formal exchange of treaties that had been made by the proper officers and ratified by the respective governments, and only lacked the forms of an exchange by the ministers with the government at Pekin to become binding, and to open the whole Chinese empire to the introduction of a higher order of civilization.

Such was the apparent condition of things one month ago. Early in June the newly appointed representatives—Mr. Bruce, British Minister, Mr. Ward, Minister from the United States, and M. de Bourboulon, representative of the French government—met here on their way to Pekin. Each government had appointed a respectable naval force, under command of a high officer, to be placed at the disposal of the Minister, in case of need, and to be used as an escort when deemed proper.

Commodore Tatnall, with the steamer Powhatan, was to accompany Mr. Ward. To enable Mr. Ward to move about with greater facility, a small steamer called the Toey-wan was chartered. M. de Bourboulon, also, had a steamer and one other vessel. Mr. Bruce had quite an imposing armament of gun boats, convoys and store ships, numbering over fifteen in all. His effective force was by the English put down at nearly fourteen hundred men. Imperial commissioners came on here, and in interviews had with Mr. Ward and the French Minister, gave assurance that the different legations would meet with a cordial reception from the Emperor. It is said Mr. Bruce refused to confer with these commissioners, and even treated them with *hauteur*. These men assured Mr. Bruce that, although the Minister would be cordially received and respectfully treated, yet the government would not permit an armament of war vessels and an armed force to penetrate into the heart of the empire.

About the 12th of June the escorts left here for the Gulf of Pechele, from which point they were to ascend the Peiho river to Suitien, where the Ministers were to have a final rendezvous and concert measures for proceeding to Pekin. The Peiho river empties into the Gulf of Pechele by a number of mouths, the adjoining country being very low and marshy.

The English having arrived first (on the 8th of June,) proceeded to examine the river. They found the mouth obstructed by a number of barriers, composed of stakes driven down and chains stretched across. There were also a number of large and well constructed forts erected to guard the entrance to the river. An interview was had with the officers in charge of the forts, who reported they had orders from the Emperor not to allow any foreign *armed* vessels to go up the river, and directions to fire upon any such vessels as should attempt it or try to remove the barriers. They were directed to go to another branch of the river that opened into the Gulf twelve miles to the northward, where they would find the Governor-General of the Province, who had been appointed by the Emperor to meet and communicate with them.

They were told that this Governor-General was appointed by the Imperial government to receive and forward the Ministers to Pekin, with all proper respect, by that branch of the river. The English chose to consider this as an attempt on the part of the Chinese to prevent them from going to Pekin, and, without even sending out a party to ascertain if there was another mouth to the river, and an official waiting to receive them, sent a reply that they would go to Pekin by that Channel and no other, and that if the Chinese did not remove the barriers by a specified time they would remove them themselves. The Chinese responded that if they attempted such a thing they should certainly fire upon them.

This was the state of things when Mr. Ward arrived. He immediately sent his interpreter on shore, who had an interview with an officer, and had repeated to him in substance the same as had been told the English. They were assured that the Emperor had made all necessary arrangements to receive and forward the American Minister with all due respect and despatch.

Mr. Ward seems to have been influenced by the example of the English legation—he also choosing to consider the conduct of the Chinese as evasive and unsatisfactory. Instead of sending out a party to ascertain the truth about the matter, Mr. Ward and Comodore Tatnall determined to wait the result of the British bullying plan.

The Chinese having failed at the time appointed to remove the barriers, Admiral Hope on the 15th day of June, (Saturday,) formed his fleet into line of battle and moved up to the attack.

During the heat of the action Comodore Tatnall sent the steamer Toey-wan to tow some boats into the action for the English thereby, as it seems to us, violating our neutrality. The Commodore also, with uncommon folly, insisted upon paying his respects to Admiral Hope when he heard he was wounded, and in the thickest of the fight. Just as he was stepping from his barge on board, his barge was struck by a cannon shot and knocked to pieces, killing the coxswain. Several days after the battle Mr. Ward sent a party with his small steamer, the Toey-wan, to look for the other mouth of the river, of which the Chinese had spoken. And it was found just as had been indicated. It was also ascertained that the Governor-General had been there, waiting to receive the Ministers.

The whole country was in a state of ferment on account of the fighting, and the Governor-General had gone up into the interior to Tien-tsin. It was with difficulty that the interpreter could communicate with the people. He finally got a letter to the Tan tai, who, the next day, sent on a boat laden with provisions, fruits, and other presents, with many protestations of friendship and respect for the Americans. He said that the Governor-General had been waiting some time to receive the American Minister and had sent him on to Pekin, but since the fighting had commenced he had gone, and it would be necessary to send a messenger to him and get a reply. At last dates Mr. Ward was waiting for an answer to his letter.

Had our Minister pursued an entirely independent course, instead of hanging on to the tail of the British legation, he might have been in the full enjoyment of all the advantages of our treaty, and our government representation would have been quietly settled near the government at Pekin. Now, it will not surprise us to hear that we are considered as identified with the French and English, when, of course, we shall, like them, be treated as enemies, and our puissant Minister will only have to return home with all his "blushing honors thick upon him."

The French fleet and their minister have returned to this place. Several of the wounded have died since they came in. The battered remnants of the British fleet are near the mouth of the Yang-tse-kiang. They own beat—say they have not in many years met with so signal a repulse. The whole thing seems to have been the result of arrogance and fool-hardiness. It's a sad lesson. The English imagine the Russians had assisted the Chinese in preparing and defending the forts. The Chinese say their forces were commanded by a Mongolian general of great skill and prudence, named Ling-quh-lin-sing.

It is to be hoped that our government will look closely into the conduct of our minister and commanders, and if they have violated the neutrality of our flag, severe censure should be visited upon them and promptly. The result of all this is that the English and French treaty with the Chinese has proved a humbug, and the relations are the same between the countries now that they were at the commencement of the Canton war. We anxiously await further developments, hoping they may not be as bad for us as the madness and folly of our representatives here deserve. G. W. F.

Death of Mr. Isambert K. Brunel, Engineer of the Great Eastern.

[From the New York Times, 28th.]

By the Circassian, arrived at St. Johns yesterday, we are informed of the death, from paralysis, on the 15th inst., of Mr. Isambert Kingdom Brunel, the illustrious engineer. He was immediately of French descent, his father, Mark Isambert Brunel, who was also renowned in the same science, being a native of Rouen. Isambert, the son, was born at Portsmouth, England, in 1806, where the elder Brunel was employed in constructing the docks of that famous sea port and arsenal. While very young he was sent to France and educated at the College of Caen, in Normandy. On his return to England, in 1826, he was engaged to assist his father in the construction of the Thames Tunnel, of which he was resident engineer. During the progress of this stupendous work he was, on several occasions, exposed to imminent danger from the irruption of the water, especially in 1828, when, being surprised by the current about six hundred feet from the mouth of the tunnel, he was seized by the water and thrown upon the beach, sustaining however, but little injury.

Some years before the completion of the tunnel, namely, in 1833, he was appointed to construct the Great Western Railroad, upon which he employed all the resources of science, and displayed a skill as an engineer which was never before and has never since been equalled. The famous Box Tunnel, on this road, was entirely his work. The longest suspension bridge in England, that of Hungerford, over the Thames, was designed and built by him. He assisted Mr. Stephenson in floating and raising the Conway and Britannia tubular bridges, one of the most difficult enterprises on record. He was also engaged in the construction of the Tuscan end of the Sardinian Railway, and during the late war with Russia was employed to construct and organize the Hospital of Renkioi, situated on the Dardanelles, and intended to afford accommodation to no less than three thousand sick and wounded at one time. These are only a portion of the land works to which he has devoted himself. Most of the large docks at all the principal seaports of Great Britain were either wholly constructed or completed by him. Nor was his genius confined to railroads, bridges and tunnels. He was also the constructor of the Great Western, the first colossal steamship which traversed the Atlantic, and whose arrival in the waters of our Bay will be well remembered by most of our readers. That famous ship was then considered a monster of the deep, being 236 feet in length by 35 feet 6 inches in breadth. Since her time the Great Britain, the Persia, and all of the Collins' line, have exceeded her in length, especially the Persia, which is 390 feet long. The Great Eastern is nearly three times her length, and to this last crowning work of ocean navigation Mr. Brunel's fame is also intimately attached. It was originally supposed on this side of the Atlantic that he was her builder, but such is not the case. Mr. Scott Russell designed her lines and constructed the iron hull of the ship, and considers himself responsible for her merits or defects, as a piece of naval architecture. He is also responsible for the paddle-wheel engines of 1,000 horse power, by which she is propelled. But Mr. Russell acknowledges that it is to Mr. Brunel, as the Company's engineer, that the original conception is due of building the mammoth ship. The idea of using two sets of engines and two propellers, was also his. It was his idea, also, to introduce a cellular feature, like that at the top and bottom of the Britannia Bridge, into her construction. These are the main characteristics which distinguish the Great Eastern from other ships, and these are Mr. Brunel's. The launching of the ship, her rigging and masting, her cabins and her outfit, were under Mr. Brunel's superintendence. Besides the regret which will be felt at his death—involving, as it does, such a loss to engineering science—it must naturally be a source of grief not only to his friends, and fellow artists in the construction of the monster vessel, but to the public at large, in England and in this country, who share so much interest in her success, that he was not spared to witness it, and be a living partaker in her renown. He was not able to be on board of her at the exciting time of her liberation from the Thames, and her triumphal progress till she emerged into the Channel. Possibly he heard of the disastrous explosion on board, a short period before his decease, but the dispatch which informs us of his death contains no particulars.

Mr. Brunel was elected in 1830 a member of the Royal Society. He was also an associate of the Institution of Civil Engineers, of the Society of Arts; and a member of the Astronomical, Geological and Geographical Societies of England. He received from Louis Philippe, some years since, the cross of the Legion of Honor.

Commercial Effect of the Probable Chinese War.

[From the N. Y. Herald, 28th.]

The prospect of a new war with China attracts some attention. It is likely that the new war between the maritime Powers of Europe and the Chinese Empire will be very different from the wars of 1842 and 1857. It will be prosecuted with more vigor, and peace will not be made except at Pekin, after a struggle which cannot but be severe. Of the issue of the contest no one can entertain a doubt, however long a period the war may last. The Allies are pretty sure to be victorious in the end, and the first condition of the peace, we may feel certain, will be the payment of a large indemnity by the Chinese. This indemnity, if large, as it must be, will probably exercise a marked effect on the money markets of the world. During the past eight or nine years $300,000,000 have been shipped in gold from this country to Europe. Of this large amount nearly the whole has gone to France and Germany, but especially to France, where it has been exchanged for silver; this silver has been shipped to India and China, where it now remains. The same remark may be made of the Australian gold, of which some $350,000,000 have been added to the circulation of the world since 1849; the gold has for most part gone to Continental Europe, where it has taken the place of silver in general circulation. It is probable that not less that $450,000,000 of silver have been thus liberated and sent to China and India within the past ten years, to pay for teas, silks, spices and other Asiatic products. In the present condition of trade there seems very little prospect of getting this silver out of Asia and into commercial circulation again by any ordinary process.

The British are forcing their manufactured goods upon India as fast as they can—with very trifling success thus far. We are steadily increasing our shipments of domestic goods, hardware, etc., etc., to China; but the amount thus far is so inconsiderable, and the consumption of tea and silk increases so rapidly, with the increase of population and prosperity, that the balance of goods always remains heavily in favor of China, and keeps up the drain of silver thitherward. It is possible that this war may in some measure correct the anomaly. If the Chinese were made to pay the expenses of the war and an indemnity, the whole in silver—say $250,000,000—the money markets of the commercial nations would be essentially relieved; and if an entry were once secured to the interior towns of China, it stands to reason that a market would be found for some European and American products which would be a good substitute for silver.

Lehigh County Fair, Pa.

ALLENTOWN, Pa., Sept. 29.—The Lehigh County Agricultural Association is now holding its eighth annual fair at this place. The display of agricultural implements, fruits, vegetables, &c., is very extensive. About 20,000 persons were present to day, being the largest number ever collected by a county fair in this section of the State.

Col. John W. Forney delivered the address.

Receipts of Flour and Wheat at the West.

In the following table, we give the receipts of flour and wheat at the principal receiving points at the West during the past week, compared with the receipts of the week previous:

	LAST WEEK.		PREVIOUS WEEK.	
	Flour, bbls.	Wheat, bu.	Flour, lbs.	Wheat, bu.
Chicago	[illegible]	411,378	[illegible]	581,4[illegible]
Milwaukee	6,963	246,175	6,384	310,661
St. Louis	7,049	[illegible]	[illegible]	72,887
Cincinnati	[illegible]	29,167	[illegible]	27,997
Toledo	19,171	65,404	[illegible]	[illegible]
Cleveland	11,496	40,078	9,937	44,460
Detroit	28,542	31,741	24,793	[illegible]
Total	115,641	[illegible]	106,469	[illegible]
Total wheat and flour, bu.		1,502,116		1,705,824

The above shows a falling off, during the past week, of 203,708 bushels of wheat, and flour reduced. It will also be seen that the receipts at Chicago alone, during the past two weeks, are considerably over one-third of the entire receipts at the West.

THE CITY.

THE DEAD HOUSE.—The new dead house at the cemetery is finished.

PERSONAL.—Jno. W. Brooks, Esq., President of Michigan Central R. R., and Hon. Geo Green of Iowa are at the Richmond.

☞ We are under renewed obligations to the courteous messengers of the American Express Company for early copies of Cincinnati papers.

BOARD OF SUPERVISORS.—The Board will probably adjourn its session to-morrow afternoon, having filled out the round week.

THE WEATHER.—We seem to have entered upon our improved fall styles of weather. Yesterday was superb.

RECORDER'S COURT.—The Recorder's Court comes in session on Mandoy next with a liberal docket of the usual classes of patients.

SERIOUS ACCIDENT.—John Engleka, a young man residing in this city, was seriously injured by a charge of shot passing through his right arm, on a gunning excursion on Tuesday last.

VESTIGES OF THE FAIR.—The lumber of the fences, stalls and edifices of the National Fair were sold at auction on the grounds yesterday afternoon. *Sic Transit.*

☞ H. D. Colvin, Esq., of the United States Express Company, has our thanks for copies of the San Francisco papers of the 5th inst., by the Overland Mail.

KNICKERBOCKER.—Norris & Hyde, No. 100 Dearborn street, have received the ever welcome *Knickerbocker Magazine* for October. It contains an admirable make-up of interesting matters.

HORSE THIEF HELD TO BAIL.—Prince Maguire is in jail under $1,000 bonds to appear for trial on a charge of stealing a horse and buggy from Jacob Gross, on Clinton street, evidently a gross fraud.

ALF. BURNETT AT THE METROPOLITAN.—We were misled in our last issue. Alf. Burnett gives his first night of lecture and admirable delineations at Metropolitan Hall this evening. Go and hear him.

HORSE THIEVES IN CUSTODY.—Louis Fifer and Charles Flasher were yesterday arrested, having in possession under suspicious circumstances, a fine black mare, fifteen hands high, white star in her forehead. They are in jail. She awaits an owner with the City Marshal.

HACKMANIA.—It is due to our hackmen to say that they have recently lost much of that hard reputation some of their number won for the whole by acts of extortion. Richard Leary was yesterday fined $50 for swindling a passenger, and a "scalper," his accomplice, was mulcted in $20.

I. O. S. M.—Last evening, the seventh regular meeting after the Feast of the Nine Cardinals, the following officers were chosen in Palestine Lodge, I. O. S. M.: Brother Amos M. Hyde, G. C.; S. C. Lum, V. G. C.; A. M. Stoddard, G. Clr.; A. H. Allison, G. C'r.; Lycurgus Laflin, T.; F. C. Russell, S. All in good condition.

"OWE NO MAN ANYTHING."—This rule is not any more agreeable in cases where it can be complied with, to individuals than it is to associations and churches. We referred a few days since to the gallant and happy effort made on a late public gathering in the First Baptist Church, Rev. Mr. Everts pastor, whereby in an hour $12,500 of the indebtedness of the Society was wiped out. We are glad to add that on Tuesday evening, the sum was raised to lift the debt of $14,500 resting upon the society—$12,500 having been previously subscribed. We congratulate the society on this auspicious event, which is not more important in its immediate results to them than by example to similar organizations in similar circumstances elsewhere.

FINE FRUIT.—Our readers will remember the splendid exhibition of Fruit at the U. S. Fair by Messrs. Elwanger & Barry of Rochester, N. Y. We have to acknowledge the receipt of a basket of pears from them of the finest varieties. This pleasing circumstance we have before known to happen, as the almanac makers would say, "about these days." It reminds us to say to our readers if they want to raise fruits the trees should be ordered from the nurseries of Messrs. E. & W. of Rochester. They have the largest and in many respects the best establishment in the U. S. Now is the time to plant. Send on your orders.

CITY MORTALITY FOR AUGUST.—The total number of deaths in the city of Chicago for the month of August, 1859, was 325, as follows:

West Division	105
South "	102
North "	47
Not stated	71
Total	325

The comparative number of deaths during the month of August for the past five years has been as follows:

1854	731	1857	372
1855	418	1858	370
1856	342	1859	325

The greatest number of interments upon any one day was upon the 26th, being 27; the least was one, upon the 12th.

HANDSOMELY DONE.—We learn that yesterday T. L. Miller, Esq., in behalf of the insurance companies represented by him in this city, paid over to Messrs. W. Lull and T. M. Avery, as losers in the late serious fire in the West Division, sums amounting, in the aggregate, to over twenty-five thousand dollars. It is a very consoling sequence to being burned out when underwriters come forward thus promptly. Mr. Miller represents a list of companies with whom, however, such prompt deeds are proverbial. "Honesty is the best *policy*" in business, is as good a saying now as ever, but a very comfortable "policy," after being burned out, is one that covers its own face with ready coin. We make this acknowledgment with pleasure, as on the sunny side of insurance.

FOUND DROWNED AT THE MOUTH OF THE RIVER.—The body of a man unknown was taken from the river at its mouth yesterday. The remains were those of a man apparently about 30 years old, five feet five inches in height, dark brown hair, dark moustache and goatee, high forehead and blue eyes. He was dressed in a buff vest, white shirt, black cravat, black cloth pants, sewed calfskin boots with red tops. He had no coat on. There was nothing found upon him which could give any clue to his identification.

The body has been placed in the Dead House, and any information relative thereto will be furnished by S. B. Berry, undertaker, Washington street, near LaSalle.

An inquest was held by Coroner James, and a verdict given found drowned.

ENCOURAGING PRICES.—At a real estate sale under the hammer of James A. Marshall, Esq., at the north door of the Court House yesterday, the following were lots and prices:

A lot on Washington street, next to the Colby House, forty feet front, $265 per foot.

Two lots in block 138 on State street, 47x103 feet, with house on each, $250 per foot for one and $220 per foot for the other.

Lots 10 and 11, block 3, Jones' Addition, on Michigan Avenue, 55½x150 feet, $80 per foot.

Lot 10, block 4, on Indiana Avenue, $70 per foot.

The condition of payment being one-half down, the balance in one and two years, these prices are certainly very remunerative, considering the stringency of money.

An Hour on the Burnt District.

We visited the blocks in the West Division yesterday afternoon which were swept by the fearful conflagration of a week or two since. The tokens are fast-springing and abundant that not far-distant is the entire restoration of that section, which will be rebuilt in a better manner than before, the latter the usual result in city fires of such magnitude.

The quarter of our city referred to will from its location be most noted for its manufacturing establishments, and indeed that prestige had been already earned before the fire which within four blocks space destroyed such extensive industrial enterprises as the Lead Works, Vulcan Foundry, Hydraulic Mills, and the Machine shops of Mason & McArthur. As we considered these the more serious part of the loss in the late disaster, looking at their relation to the manufacturing reputation of our city, we were yesterday glad to see among some of these, tokens of a vigorous vitality, which will soon reproduce them on their former sites.

Within a day from the time of the fire, E. W. Blatchford, Esq., had thrown a high fence about the smoking ruins of his noble structure the Lead Works, as well to guard from temptation the eager covies of the junk dealers who would find plump picking around the destroyed edifice, as to prepare for a vigorous attack upon the debris to rear again the walls of the Lead Factory. Their experiment has proven that the Chicago Lead Works were not more happily located as regards themselves, but as a convenience and advantage to our entire business public. Mr. Blatchford has already completed a temporary structure where he has fully resumed business in all its branches, of Lead Pipe, White Lead and other manufactured products of this staple. Meanwhile a large gang of workmen are digging and delving in rich lead diggings within the walls of the ruins, where shot and sheet and pipe lead lately

* * * * "In one red burial blent,"

come out in confused and straggling masses. We looked into this area of ashes and desolation. The cellar of the factory was a deep one. It was nearly filled with rubbish, from which nearly everything combustible had burned away. Everything attests the seething heat of that furnace. The massive stone walls are rent and ragged and burned white. Solid machinery and castings, broken and twisted, bear evidence of having been actually fused. The late magnificent steam engine is now old iron. Fortunately the smoke stack and boilers were in an outer building and are comparatively uninjured, it is believed. The work now more immediately in progress is with a view to an adjustment of losses with the Insurance Companies, but it is all preparing the way for the new Lead Works.

Further north on Clinton street, Henry Warrington we saw yesterday busy with a gang of workmen, raising the frame for the new foundry and boiler shop of the Vulcan Iron Works, and just adjoining on the former site now cleared, is immediately to rise the machine shop. The former structure will be forty feet front by one hundred and twenty deep, and as before, of wood. The machine shop will be two stories high, and of brick, in dimensions forty feet front by ninety feet deep. These new buildings will be put up with all possible dispatch.

The Sash, Door and Blind Factory of Joseph Wiley is also being rebuilt. T. M. Avery has finished a new stable on the site of the old one destroyed. The lumber yards have again been enclosed. Fresh sawn lumber is fast shutting out the darkened and scorched traces of the destroyer's progress, and though the blow was a heavy one, a glance at the burnt district yesterday was a cheerful assurance that to be cast down is not destruction, and that there is in our vigorous young life blood as a city, something at once superior to panic times and the terrific march of a conflagration, whose ashes in this instance will not rest and darken longer than those of a prairie fire, which the next season shall shut out with fresh tokens of vitality.

The River Basin.

One of the most noble and notable business improvements in the city has been going on silently and quietly for a few seasons past, at the angle of junction of the North Branch with the river. A point of land that jutted far into the stream, sending the vessels bound up the North Branch a roundabout narrow channel, was itself for years a shore nuisance of the first water, or rather mud and water. It bore a copious growth of low shanties with the accompanying cow sheds, was the haunt of the vilest and lowest population of the city, was, in short—Kilgubbin. Who does not remember when a row of invalided canal boats, and a boat yard or two, with the tenement associations of the spot, made this angle of the North Division more picturesque than pleasing when viewed from afar. At nearer view the question of personal safety from being swamped in mud, suffocated with stench, or bludgeoned in wild Celtic freakishness absorbed all the visitor's attention.

All is changed there now, and the demands for business purposes on this very valuable site have altered its shore and river aspects. The dock line has been carried back, and the channel widened to nearly double, if not more, its former breadth; and the steam dredges are still busy day after day, lifting the mud from the bottom of the river and landing it within the line of the docks, which now present an unbroken front, curving broadly from the main stream to the North Branch.

A line of the natural surface, a few feet in breadth above the water, and a couple of hundred feet in length, alone remains now in nearly mid channel, to tell what has been done, and how much has been redeemed from the natural boundary of the river, to secure at that point a noble basin. This remaining soil is fast yielding before the hungry attack of the steam dredge. Another season at the farthest will develope and complete the noble improvement.

The passer-by may very profitably pause on Lake street bridge a few moments, even if the tugs and their consorts do not there detain him to glance at the new river basin which will soon fill its important purpose as the point of confluence of the great marine arteries of our commerce.

A Letter From the Jail

CHICAGO COOK COUNTY JAIL,
Sept. 29th, 1859.

Editors Press and Tribune:—

We see in your valuable paper of yesterday and to-day a just exposure of some of those negligences and abuses that exist at present in the Cook County Jail. However, the moral part of it is still unknown to the public, as well as to the Board of Supervisors. The managers of the jail have until now contrived to conceal it dextrously from the observation of the latter. Each time when a visit of the Board of Supervisors is expected, the Jail is cleaned up a little for the occasion and made to appear tolerable for the moment, but so soon as the visit is over all is left to elapse into the old miserable condition. What does Sheriff Gray care for his prisoners? The only object he has is to make them subsist on as little as possible, and so pocket as much as he can from the money he receives for that purpose.

The public should be reminded that of all the prisoners which are confined in the Court House of Chicago, there is none that serves out his sentence, but they are generally kept there for want of bail, awaiting their trial. Each of them might be as innocent as the best citizen that walks our streets; this is the presumption of the law.

Those confined in the debtors department, whose only offence consists in the inability to pay their debts, are treated by Sheriff Gray as the rest of the prisoners which must be considered wrong and unjust, as the charge for their board does not fall upon the County, but is paid to the Sheriff by their creditors. There are now 75 prisoners under the Court House; for each of them Sheriff Gray gets 50 cents a day for his board. At the present prices of provisions, this is more than sufficient to feed a man on liberally substantial food, but let us tell you, Messrs. Editors, the food we get here is a miserable stuff, and does not cost at the utmost 10 cents per day.

1. The breakfast is a black melange made up of water and molasses, milk, ¼ lb of bread, worth 3 cents.

2. The dinner is a mixture made up of potatoes with peels, rotten anions, old bread, and some shank beef, which, when boiled together, makes a swill only fit to feed hogs, and which can hardly cost 5 cents.

3. The supper consists of ¼ lb of bread, which costs at retail price only 2 cents.

4. and of fuel for the whole day only 10 cents.

It is a sure thing that the food for all 75 prisoners when bought at wholesale can hardly cost that, and it is evident that of those $37.50 which the Sheriff receives for the board of his 75 prisoners, he spends hardly $7.50 cents a day, and hence pockets $30 every day.

There are no other expenses for cooking or attending, as all this work is done by the prisoners. Those of the prisoners that can possibly help it, do not eat this swill, and it is taken back to Sheriff Gray's farm, with which he feeds his cows and from where the proceeds are returned again to jail in the shape of milk and sold to the prisoners twice a day at 25 cents a gallon. Of course those that have a little money left, make this their principal food, as there is no other way left to them and the word of a prisoner is seldom heard and believed.

We understand that in Bridewell they get better food than we, and the city only gives fifteen cents a day.

We have given you, Messrs. Editors, the above facts as they exist, and wish you to expose them and put the blame on those who deserve it.

Yours truly,
SEVERAL PRISONERS.

Board of Supervisors.

FOURTH DAY.

The Committee on Poor House and Paupers reported favorable to paying D. Simon $4 for taking an insane pauper to Jacksonville, and $15 to Dr. Fisher for medical services. Concurred.

The Committee on Miscellaneous Claims reported rejecting the proposition of Kelly & Co, to furnish the county with coal, and that the charge of favoritism made by Kelly & Co., against Star Foote are without foundation. Concurred.

The same Committee reported favorable to paying sundry bills, amounting to $1,373.13. Concurred.

The Committee on Judiciary reported favorable to furnishing each town with an additional ballot box. Concurred.

The same Committee made the following report:

TO THE BOARD OF SUPERVISORS OF COOK COUNTY:—Your Committee on Judiciary to whom was referred the report of Wm. L. Greenleaf, School commissioner, with regard to money received by him for fees, &c., having had the same under consideration, beg leave to report, that they find he has received the sum of $304 50, from all sources, and that he has submitted to your committee reports of sundry Justices of the Peace, to wit:

The following is the report of the Committee on

EQUALIZATION OF TAXES.

Your Committee on Equalization of Taxes, to whom was referred the Assessment Roll of the several towns of the county having had the same under advisement by leave to report that there appears to be a great discrepancy in the valuation of real estate by the Assessors of the different towns of the county. Your Committee would recommend that the assessment of West Chicago be amended (so as to reduce it in the aggregate to 20 per cent. on the Assessors' valuation of the real estate.)

Your committee would further recommend that for the purpose of equalizing all the assessment rolls of the County, there be added to the valuation of the assessors on the real estate as follows:

To the town of Lemont 20 per cent, to New Trier 30 per cent, to Barrington 55 per cent, to Niles 10 per cent, Bremen 15 per cent, Palos 15 per cent, Lake 3 per cent. And further to reduce the aggregate on the following towns; Lyons 20 per cent, Proviso 20 per cent, Evanston 15 per cent, Worth 10 per cent, Elk Grove 25 per cent, Rock 10 per cent, and confirm the assessment of all the other towns, and in the opinion of your Committee the arrangement will cause all the towns to bear a just relation to each other in their valuation.

S. PENNOYER.

The report was accepted.

It was voted to go into the election for Warden at the Poor House, *vice* Rommeis resigned, this morning at 11 o'clock.

On motion of Supervisor Speer,

Resolved, that the Finance Committee have full authority to examine all the books of the County Treasurer, with reference to a settlement of his accounts, and report the same to this Board.

Adjourned to Friday morning.

FIRST PREMIUM PENMANSHIP.—We understand that Prof. Sloan of Sloan's Commercial College, has made arrangements to publish his new system of First Premium Penmanship. The public will be sure to realize in it a system of business penmanship, that will be at once plain, rapid, and practical. No flourishing, nor any of these useless and absurd "attachments" which spoil good writing and render bad ridiculous, will tarnish this new system. It will be easily acquired by both youth and adult.

We will also add that to be able to write a good hand is not only a great accomplishment, but a valuable acquisition, and if the new system produces all the results promised (of which we have no doubt,) Prof. Sloan will have been the originator of a great public benefaction.

LOCAL MATTERS.

☞ Go to John Jones & Co., 119 Dearborn street, and get your clothes cleaned and repaired. They will be well done and at prices to suit the times.

☞ A friend of ours hinted that our coat was getting somewhat *seedy*; we concurred, and not being able to afford a new one, we took our old one to Cook & McLain's Premium Dyeing, Scouring and Repairing Establishment, at 98 Dearborn street, and are now, apparently, encased in new broadcloth. Let our friends "go and do likewise," and the ladies will please not forget No. 123 Clark street, when they have any soiled or faded garments to be cleaned or dyed.

A GREAT DESIDERATUM.—The best oil to burn in Kerosene or Coal Oil Lamps. If you wish to see an oil that will burn without odor, and that one half of a pint will burn twelve hours, giving a light equal to eight candles, call at the Lamp and Oil Emporium, and ask for Boston Kerosene, for which we are the Agent. The trade supplied at Boston prices, adding only freight and exchange. Remember the place, 126 Clark street. se 29-2w

STATIONERY.—Messrs. McNally & Co., No. 81 Dearborn street, have now in store an extensive stock of writing paper and envelopes of every description, comprising cap, bill, letter and note paper, at prices varying from one dollar and twenty five cents to five dollars the ream, and envelopes ranging at prices from one dollar and fifty cents to four dollars per thousand. Paper by the quire and envelopes by the package will be sold equally low. Don't forget that 81 Dearborn street is the place to buy paper and envelopes at the lowest rates. sep26-6t

The advantages the Loan Fund Association offers over any other moneyed institution are:

1st. As a place of investment. There is not a Savings Institution in our city based upon a safer principle, or that pays so large a percentage, as these Loan Fund Associations are paying. Their popularity and financial standing in the Eastern states, fully attest this assertion.

2d. It converts rent into capital by enabling those who will avail themselves of its benefits, to procure a homestead through a loan from the Association, the same being repaid by a small stated sum monthly, with interest, until the principal is returned, thus making the Association their landlord and knowing that each months payment goes toward making the property their own.

Books for subscription to the stock are now open, and any information can be obtained by application to the Secretary, at the above office, between the hours of 10 A. M. and 4 P. M. se30-a566-6m

Press & Tribune.

FRIDAY, SEPTEMBER 30, 1859.

WELL DONE, MASSACHUSETTS.

The recent State Convention at Fitchburg, in good old Massachusetts, dared to call itself Republican—not "American" Republican, but Republican without limitation, qualification or reservation. The resolutions are Republican in form and doctrine—bold, fearless and uncompromising. The speeches by which they are sustained have the ring of the pure metal without a particle of proscriptive alloy. Verily, Massachusetts is progressing!

A PAIR OF SAINTS.

The transparent hypocrisy of the pious saints—†John, of the Chicago *Democrat*, and †James, of the Chicago *Times*—who are striving to get up an unnecessary row in this community because a portion of the Americans and a large share of the Germans, Italians, French and Irish do not keep the Sunday to their liking, needs no exposure; nor does the scandal with which the unsanctified and desperately wicked clergymen, like Roy, Hammond, Patterson, Collyer, Schenck, Patten and others are visited, because they will not join in a Pecksniffian crusade, need any refutation. There is enough of real piety, straight-forward, earnest, downright common sense among the men who vote and read the newspapers to lay bare the first and heap contempt on the latter. There is not a man who does not know that the conductors of both the journals named are striving for the accomplishment of a political purpose; and that the Sunday is the least of their cares; and there is not a man who will not condemn this unholy effort—as sneaking as it is insincere—to make matters worse under the lying pretext of reform. We illustrate what we mean: Not long since we printed from an unknown source a long communication on the subject of Sunday observance. It took high Sabbatarian ground, and was apparently the production of an earnest man. The writer could not help boasting of his skill as a dialectician; hence his name came to our ears. It was that of a well-known pro-slavery politician. Last Sunday, we met him on the cars, drunker than a fool, and more blasphemous than Satan. He was exulting over the prospect of beating the "d—n nigger-stealers," next Spring, by the agency of the Sunday question, which he had in his keeping. Comment is not needed.

THE CHINESE WAR.

The obstinacy, brutality and blood-thirstiness which make all civilized and Christianized men hateful to the semi-barbarous races with which they come in contact, are the causes which led to the recent slaughter of the British by the Chinese in their river Peiho, and that will light up a war, the result of which no man can forsee. We print to-day from that excellent and reliable journal, the New York *Evening Post*, a letter from an American merchant at Shanghai, in which the facts touching the recent display of that obstinacy and brutality, are, without doubt, faithfully related; of a piece, however, with the French in Algiers, with the domination of the English in India, and with the American treatment of the red men of our own country, or the greasers of Mexico. Timidity, suspicion and hatred on the one side, and strength, confidence and horrible selfishness on the other—all resulting in acts of atrocity for which Christian nations have never learned to blush.

It will be seen with regret that the American Minister in China has, as usual, followed in English leading strings, and that, as usual, an irreparable blunder has been committed. By his act, he has probably reduced the diplomacy of our country to the level of the French and English endeavor in that direction, and has shut us out from all the commercial benefits which a little independence of action, united with a small share of fair-dealing and common sense, would have secured. If what the correspondent of the *Post* relates be true, he deserves instant recall, and such punishment as the flagrancy of his acts demands.

We invite the attention of our readers to the letter in question, that they may learn how [illegible] how glorious a thing civilization is when it deals with inferior races!

ST. LOUIS FAIR.

Immense Display of People, Poultry, Pigs, Sheep, Stock and Soldiers—St. Louis Enterprise—Chicago Emulation.

[Correspondence of the Press and Tribune.]

St. Louis, September 27, 1859.

The St. Louis Fair will be a great success. The exhibition opened yesterday under the most flattering auspices, having a drenching rain in the morning. The number of entries exceeded 3,000, and the crowd on the ground at 2 P. M., reached 15,000 in number. The display of stock, fruits, vegetables, machinery and works of fine art is very fine—equal if not superior to that in Chicago.

It would be a great mistake to call this simply a "St. Louis Agricultural and Mechanical County Fair." The exhibition at Chicago was called a "National Fair," when in truth it was simply a *Northwestern* Exhibition. The Fair held here is a Southwestern Exhibition, and draws persons and articles from as wide an extent of country. The whole State of Missouri, the south half of Illinois, and the north half of Kentucky are fully represented. Southern Illinois is here almost in as great force as Northern Illinois was in Chicago. There are many exhibitors here from Southern Ohio and Indiana, and some from Western Virginia, and from the river counties of Iowa and Tennessee. Then again, much of the machinery on exhibition at Chicago from the Eastern States is here, which adds materially to the display and variety of the articles on exhibition. A great deal of the best live stock shown at Chicago has also been removed here to compete for the prizes.

From this survey of the territory rendered tributary to this show, you will perceive that it is in no sense a "County Fair," save that the management is in the hands of citizens of St. Louis.

The resolution of the people of this city has been to make this Southwestern Fair beat your Northwestern one, and I am not sure but they have done it. They have shown great public spirit in preparing for these annual expositions—far more so than the people of Chicago, and they are reaping a rich reward for their liberality and enterprise. An intelligent gentleman of this city said to me that each of these Annual Fairs was worth millions of dollars to the people of St. Louis; that every cent expended had been returned twice ten fold in money and benefits. Immense sums of money are left in the city by the multitudes of visitors; but this is not the only or chief benefit derived. The Fairs place before the eyes of visitors a thousand articles of St. Louis production, and thereby open up a wide market for them, causing orders to flow in from long distances during the whole intervening year. Scores of exhibitors from abroad seeing that St. Louis is a good point for the disposition of their handy work, establish themselves here for the sale and manufacture of their patents, which all contribute capital, enterprise and population to the common prosperity. Let a man get his name up and his fortune is soon made. This rule holds good for *places* as well as persons. St. Louis is no longer a *Southern* city, but is filled with live Yankees and a free labor population. People here do not depend upon the lazy labor of slaves, but upon their own hands and energies as much as the people of Chicago. They do not confess to a feeling of *jealousy* of Chicago, but they say they are bound not to let her pass them in the race of greatness, if they can help it. They do not underrate the natural and artificial advantages possessed by the "Queen of the Lakes," and they do *over rate* the enterprise and liberality of the business men of your city, and this is one reason perhaps why they put forth so much special effort themselves. I am clearly of opinion that if the business men of Chicago would do as much individually and collectively, as the same class of men do here, the trade—mercantile and mechanical, of Chicago would be doubled before three years. I wish a hundred of your most public spirited citizens were here during this Fair week; and I wish, also they could bring along with them one hundred of the "old bunkers." I am confident that all would carry back with them a good many useful hints, and learn some lessons that might be profitable to teach their fellow citizens afterwards.

But I am wandering from the immediate topic before me. Let me give your readers a brief sketch of the origin, progress and present position of the St. Louis Agricultural and Mechanics Association, which has become, as I before remarked, a Southwestern association for the promotion of agriculture and mechanic arts. I find a clear account of the origin and progress of the Association in this morning's *Democrat*, which I copy, viz:

"The St. Louis Agricultural and Mechanical Association, as it at present exists, originated in the year 1855, by an act of the Legislature incorporating the Association 'for the better development of agricultural and mechanical interests.' A Board of Directors was at once elected, and the purchase of the present grounds effected on the 4th of June, 1856, from Col. John O'Fallon, at a cost of $50,000. The first fair was held on the 13th of October following, and was a great triumph, considering the haste in which everything was prepared, and the magnitude of the enterprise. Thousands flocked to the exhibition, and the pecuniary results were so gratifying, that many other additional buildings were erected, and the premium list increased for the second fair to upwards of $6,000. It proved a success more decided than the first; and the fair then became a recognized institution, and the presence of thousands of strangers during its progress gave an impetus to every branch of business.

The number of contestants for various premiums increased wonderfully, and last year the third Fair took place, and the attendance was greater than upon either of the previous years. Twenty thousand pamphlets, giving the list of premiums offered, were scattered throughout the country, and the managers were compelled to turn away parties who came in late with their offerings. Who that was in the city during its progress can forget the general excitement and pride among all classes of citizens which it elicited? Not less than twenty-five thousand people were present at various stages of the exhibition, a large proportion of whom were from abroad. The profits of the previous shows have enabled the Association to offer superior inducements for stock raisers, farmers, mechanics, and artizans of all classes, to compete for prizes, and the present year's exhibition opens under the most brilliant prospects.

DESCRIPTION OF THE GROUNDS AND IMPROVEMENTS.

The grounds occupied by the Association, and commonly known as the "Fair Grounds," are situated just outside the city limits, in the western part of St. Louis County, fronting upon Grand avenue. The land was purchased from Col. John O'Fallon, and when selected for this purpose was a mere wild wood, diversified by a considerable plain of slightly uneven surface, and requiring an immense deal of improvement to render the site available for an extensive fair. The location is not far from the Water-Works, a fact which had much to do with the selection. It was at once enclosed in a substantial fence nine feet high, and the erection of buildings speedily commenced. These have been added to from year to year, until at present there are a variety of substantial structures adapted to the use and purposes of the exhibition upon the premises. The immense amphitheater for the exhibition of prize stock is unsurpassed by any similar building upon the American continent, being three hundred and five feet in diameter, or nine hundred and fifteen feet in circumference, while its seats provide for the accommodation of nearly twelve thousand persons.

The arena inside this vast building has a diameter of 225 feet. The Floral Hall is a circular building with a circumference of 228 feet. A new building for the exhibition of textile fabrics has been erected this season: it is 36 feet wide by 100 in depth. The Agricultural show room is 200 feet long by 30 in width. The Mechanical department occupies a building 79 feet long by 32 in width, and the Machinery room, which has steam power sufficient to test all machines that may be brought into competition, is 240 feet by 200. Besides these, there are tents and sheds, and smaller buildings designed for the purposes of the exhibition. Within the arena enclosure is a fine pagoda, 45 feet in height, and divided into three stories. Around the western border, six hundred stalls for cattle have been erected, (over one hundred of them during the present season.) There is a bakery; also a gothic cottage containing retiring rooms and saloons for ladies. It is handsomely furnished and highly appreciated by the fair sex. A vast outlay of money has been required to put the grounds in their present order. The gateways are guarded by two towers, and on either side the ticket officers are arranged. There are separate entrances for carriages and pedestrians, so that no danger of accident exists. A course has been laid out for the exercise of stock, and roads lead to all parts of the ground. Underneath the main floor of the amphitheater, there are eighty-one booths for the sale of refreshments, and we are pleased to note the prohibition of the sale of intoxicating liquors. Around the principal buildings, a large number of trees give to the grove a rural appearance, and the general effect of the grounds viewed from the heights of the pagoda is unusually fine."

When will the people of Chicago get up such a Fair Ground? They *cannot afford to do without it*, and no time should be lost in making a commencement. Grounds equally as handsome and more accessible, can be purchased and set apart for a permanent annual exhibition of the products and skill of Northwestern industry, in its commercial emporium, Chicago. The woods of Cottage Grove and the open adjoining prairie, offer the best possible grounds from which to select thirty or forty acres to be set apart for an annual industrial exposition. A citizen of Chicago attending this Fair, said he would be one of one hundred to subscribe $1,000 apiece to purchase and improve a Fair Ground, and if necessary, he would double his subscription. How many more are there who feel equally public spirited according to their means and ability? But this letter is absolutely too long, and I must stop short.

SECOND DAY.

A Comparative Description of the Departments—Great display of Art and Chickens—Murders and Deaths—Grand Ring Performances.

St. Louis, Wednesday, Sept. 28.

My first impressions of the Fair were fully maintained by a most careful examination yesterday. St. Louis has "put her best foot forward," and certainly achieved a splendid success. Taken as a whole, I am constrained to concede the palm of superiority to the St. Louis over the Chicago Exposition. In regard to the number of visitors, it is yet too early to speak, as to-morrow and Friday are expected to be the great days. The number of people on the ground to day was not far from 18,000. The weather is delightful; the roads are good, and everybody enjoys themselves to their hearts' content.

It is unnecessary to go into a detailed description of articles on exhibition; a glance at the departments must suffice.

The Chicago Fair was superior in the display of the products of the field and garden. In vegetables there is nothing to excite special attention. The display of fruit and flowers is inferior to that in your city, which I hardly expected would be the case. The show of seed wheat is very slim. Garden seeds are well represented. I see nothing in the bread line equal to that exhibited by the Chicago Mechanical Bakery. But in condiments, honey, preserves, native wines, beer, and the like, this Fair excels yours. The display of honey is great; but there is some trepidation in passing among the numerous swarms of bees that buzz about people's ears. Of cheese and butter, the exhibition is deficient, and far inferior to the Chicago display.

The display of agricultural implements is very fine, though not equal to that in Chicago. Many of the same machines are here, besides a good many not exhibited in your city. The steam plows are not here, and thousands feel disappointed in consequence. But passing from reapers, threshers and mills, to mechanical hall, I observed that there were more articles of St. Louis manufacture in proportion to the whole, than the mechanics of Chicago entered at their Fair; and the same remark will apply to the machinery department. However, the machine that attracted the most attention was the Chicago stone-breaker, of Ellithorpe & Scoville. It crushed up the hardest rocks with an ease and rapidity that made the crowd stare. Quite a number of steam engines are exhibited, but none of them compare in style or beauty to the one put up by Gates, Warner & Co., to propel the machinery in the Chicago exhibition.

There was an immense assortment of wheeled vehicles of all descriptions exhibited, and some of them are very fine specimens in the carriage line; and, speaking of vehicles, it is astonishing to see the number of private carriages that visit the Fair Grounds. Every citizen that owns one seems to have put it in requisition.

In the department of Textile Fabrics, the display is very great. The ladies have nearly monopolized the building. They made the hall devoted to these articles the center of attraction, the building being thronged all day long. The exhibition was certainly creditable in the way of home made blankets, carpets, stockings, fulled cloth, yarns, coverlets, netting, crotchet work, quilts, comforters, specimens of sewing, embroideries and fancy fixens too numerous to mention, even if I knew their names and uses.

The Art Hall far surpassed my expectations. The contributions number at least one thousand articles. The display of paintings, such as portraits, landscapes, marine views, battle pieces, historical and fancy sketches, is equal in number and merit to those exhibited in Burch's building last summer. The display in the Photographic line is inferior to that in Chicago. Marble busts, medalions, and bronze figures, are shown in considerable numbers, but present nothing of home art of consequence.

The Live Stock departments are fully up to the Chicago display, both in number of entries and excellence of animals. The horse show is superior, if anything, to yours; the cattle about equal; swine superior; ditto sheep; and in the way of fowls, it greatly surpasses the Chicago exhibition. The gallinarium or chicken coop, is a large wire cage with passage ways through it at right angles. It is filled with all species and varieties of domestic fowls; and what a cackling, crowing, gobbling, quacking, hissing, chattering and screeching they keep up! But I must stop writing about animals, fowls, &c., and draw to a close.

There have occurred some serious accidents and incidents. Yesterday a man was murdered just outside of the Fair Grounds. He was seen rushing out of a drinking saloon with a terrible cut across his throat. He died in a few minutes. Another man was crushed between two horse-cars at a turn out, and killed almost instantly. A man put his head out of the window of an omnibus and came in collision with some passing vehicle, nearly breaking his neck, and cutting his face and head badly. But the most exciting accident of the Fair was the grand runaway, turn-over, and smash-up among the fast men who were showing off their horses and sulkies in the ring this afternoon. About twenty-five horses and sulkies were flying round the ring in the presence of ten or twelve thousand persons, when one driver ran into the gig of another one, which frightened his horse. The horse bounded off at full speed, striking several other horses and sulkies, and starting them off likewise. Within a minute the panic and runaway feeling were communicated to almost every horse in the ring. Gigs were smashed to splinters; drivers were hurled headlong from their seats to the ground and run over; some of them held on to their reins, and were dragged along; one or two got caught with their feet in the wheels and were hurled about in a frightful manner. Some of the horses madly attempted to jump over the railing among the frightened spectators. Others plunged madly for the entrance and exit places, and dashed their vehicles to pieces against the sides of the passage way. Just picture to your mind a score of high-mettled horses attached to carriages, all running away promiscuously on the space of an acre—crashing against each other, rolling over and springing up, plunging, kicking and squealing, around and across the area, in pell mell terror and confusion, with portions of broken gigs following their heels, with their drivers rolling or dragging in the dirt among the debris of sulkies and hoofs of the frightened horses; add to this the rush of a hundred hardy men into the ring, trying to stop the horses, many of whom getting instantly knocked down and run over, and the shouts of ten thousand men and screams of five thousand women, and you can form some idea of how the scene looked to the spectator. In five minutes it was all over, and horses, men and gigs had cleared the ring. Strange to tell, no one was killed, though several received severe contusions, and few escaped without bloody faces or soiled and torn garments. The whole accident strongly reminded one of the descriptions given of the old Roman gladiatorial contests with wild animals, witnessed in the great Colliseum of Rome. This last exhibition of horsemanship was not down in the bills, and the crowd adjourned for their homes and stopping places, after witnessing this ring performance.

THE FARM AND GARDEN.

Fair at Mattoon—Waters' Steam Plow—Breaking Prairie in Spring and Fall—A Successful Experiment.

West Urbana, Sept. 27, 1859.

The Fair at Mattoon last week was a success both in the exhibition and attendance, though the first two days were wet and rainy. Had the weather been fair throughout, it would have far exceeded the most sanguine expectations of its friends. The ground selected is prairie, about a mile east of the depot, and contains eighty acres, which is enclosed with a high fence. The stalls are of the first class, and what buildings and fixtures are put up are well made, as the whole thing is intended to be permanent and will doubtless prove successful. The point is a central one—almost on the dividing line between Central Illinois and Egypt—and will of course call together the products of these two sections, which in point of soil presents such a marked difference in geological elements.

The show of horses and cattle was good, among which were many very fine animals which had taken prizes at the State and National Fairs. Of farm and garden products, the show was large and the prizes warmly contested.

The show of flowers was not large, but good; but of apples only two lots were presented. The difficulty was that the farmers do not know the names of their fruits, and cannot of course compete without this knowledge; yet we felt much disappointment, as the orchards in this and adjoining counties have a good show of fruit. As farmers get more accustomed to these exhibitions, they will make better shows of their products. In Irish potatoes, the contest was spirited, and the samples were more numerous and better than at the two great Fairs. For the best quarter of an acre, four parties have entered, one from McLean, one from Champaign and two from Coles. The farmers this way are becoming well satisfied that they can grow as good crops of potatoes as can be grown near Chicago, and we are well satisfied that more potatoes will go north from this point than will be shipped south. Sweet potatoes are coming into general use, and the show was good. The party taking the second prize in Chicago took the first here. The great attraction of the day was

WATERS' STEAM PLOW

Which came on the ground on the second day of the Fair. It drew the two gangs of thirteen plows, cutting nineteen feet, through the prairie sod without any difficulty or failure, to the entire satisfaction of the Committee and farmers present. The Society awarded him the first premium of $300. Mr. Waters now proposes to put the plow to the test of dollars and cents, and offers to do old land plowing or the breaking up of prairie by contract; and any person who wants a job of this kind done, should address him at Mattoon, where he makes his present headquarters. The weak parts of his machine, which gave way at Chicago, have been repaired, and he is confident that he will succeed. This is the true way to try this machine. The showing at fairs proves nothing, but the plowing of two or three hundred acres will go far to settle the point of practicability. We have settled the point that prairie can be as successfully broken up in February and March as in June; in fact, the easy breaking is now more thoroughly rotted than that broken 12th of June, just before a long drouth. If any doubt this, let them come and see for themselves, and they will learn that prairie breaking is no longer a mystery, confined to June and July. Of course, the common mode of breaking is not applicable to late and early prairie breaking, but is even much less expensive by at least a dollar on the acre; at the same time the land is in as good order for crops. We shall hope to see this new principle adopted by the steam plow when fall plowing the prairie sod will fit it for a crop next season, and give this new element of prairie greater value. We are satisfied that the system of plowing and seeding as at present practised must soon undergo vast changes, as it is certain that the prospect of an advance in farm products is not very flattering, and the only way in which we can see any advantage is by plowing at a cheaper rate, in the economy of labor. If we can grow wheat for twenty cents less a bushel than by the old process, we shall have so much more clear profits.

RURAL.

Destructive Fire at Whitewater—Loss $14,000.

Office of Whitewater Register, Whitewater, Wis., Sept. 27, 1859.

Eds. State Journal:—The warehouse of Messrs. Winchester, DeWolf & Co., Plow Manufacturers of this village, was destroyed by fire about three o'clock this morning. When discovered the flames had made so great headway as to prevent anything being saved. The building, a two story wooden one, beside basement, 30 by 60 feet, together with contents, including over 800 plows, about 5,000 plow woods, a lot of sugar mills and road scrapers, and much other property, is a total loss. The loss will exceed $14,000, insured for $9,600, as follows:

Home Company, New York City, 1,600; Ætna, Hartford, $3,000; Hartford, Hartford, $2,000; North America, Hartford, $3,000.

This is the heaviest loss by fire that has ever occurred here. The fire was doubtless the work of an incendiary.

Messrs. Winchester, DeWolf & Co., not disheartened by the severe catastrophe, are already making preparations to resume work, and will turn out plows and fill orders as fast as possible.

Yours in haste, H. L. Rann.

Democratic Consistency.

"I consider it to be a benefit to the negro to bring him from his native jungles to a Christian country, where he is civilized, Christianized and prepared for Heaven."—*Vide Gen. Dodge's speech*,

"If the niggers are uneducated, and live in ignorance of their accountability for the sins they commit, their future happiness will be secured, and their entrance to Heaven made sure; hence it is wrong to educate them."—*Vide Babbitt's speech on School Law.*

Found Guilty.—David Mead, who was indicted at Moline for an "assault with intent to murder" R. H. Graham, Esq., Editor of the Moline *Independent*, has been convicted of the offence, and sentenced to the penitentiary for one year.

PERSONAL.

—After Rev. Dr. Parson's sermon at Nashville, Tenn., a short time since, Rev. P. Barth, a German missionary, stated that when Dr. Parsons was on the stage, he (Barth) and two of his brothers were members of the orchestra that made the music for Dr. P. Now Dr. Parsons is one of the stationed preachers in Louisville, he—Phillip Barth—is a missionary to the Germans in Nashville, one of the brothers is a presiding elder in Indiana, and the third a Methodist class leader.

—Hon. Jefferson Davis has returned to Washington with his health much improved.

—We are sure it will gratify all to learn, as we do from one of Mr. Greeley's California letters, that Col. Fremont is at last making money out of his Mariposa gold mines, the possession of which for a long time kept him a poor man.

—A letter from Florence, in the Boston *Transcript*, states that Mrs. Elizabeth Barret Browning has passed most of the summer at Siena, in Tuscany—seeing no visitors, and most of the time unable to walk, except across the room. The change of air and entire rest have began to yield good fruit; she has gained strength, and her worst symptoms have abated. In her immediate vicinity Walter Savage Landor has been living. Poor old man, yet noble and intelligent, he has not found the solace and comfort which he seems to have gratefully sought, after the unfortunate libel suit; and, leaving the Florence villa, he past a secluded and tranquil summer at Siena, where his interesting conversation charmed a little circle of friends. Landor still writes Latin verses, is as enthusiastic lover of freedom and Italy as ever, and has just prepared a large edition of his "Hellenics" for the press.

—The Albany *Journal* announces the death of in Delaware county, N. Y., Judge Levines Monson. He was a lawyer of eminent ability, and occupied for many years a very high place at the bar and on the bench.

—The Springfield *Journal* says that the proprietors of a weekly paper in an adjoining county, who are somewhat poor, are making almost superhuman efforts to keep the paper going. In order to raise the wind, one of the publishers has turned out teamster, and the other is teaching a country school. The type setting and press work are done at extra hours, after dismissal of the school and the currying of the horses! This speaks badly for the community in which they live.

—The literati of Boston and Cambridge have appointed a committee of twenty to prepare for the great centenary Schiller festival, on the 10th of November, which will be celebrated throughout the world.

—The New York correspondent of the Philadelphia *Press* says that Father Chiniquy, whose history all our readers are familiar with, has finally settled down as an Episcopalian. He has written a letter to a gentleman in New York, extracts from which were published in the *Churchman*, expressing thanks for several hundred copies of the Common Prayer Book, and stated that his congregation had decided to adopt them, and to connect themselves with the Episcopal Church.

—Here are portraits of the heroes of the Peiho affair. Admiral Hope, who commanded the British fleet, is an officer of the most manly appearance, being about six feet in height, and very thick and muscular, but well proportioned, of a benignant countenance, and the most gentlemanly manners. His age is about fifty-two years. Mr. Bruce, the new Minister, a brother of the Earl of Elgin, the late Minister, is a little under fifty years. He was, at the time of his appointment, Consul General in Egypt. Baron De Bourboulon is the French Minister, also about fifty years old, and quite gray, low in stature, and withal quite lame. He carries a pleasant face, but not intellectually striking.

—Mons. De Lave, who is a rival of Blondin in a small way, gives notice that he will walk over the Genesee Falls on his tight rope, on Thursday and Friday of next week, and on one of the days named—which day he does not say—will carry a man weighing 144 pounds on his back.

—Mlle. Piccolomini has been starring it in Yorkshire and Lancashire, England, crowded audiences being attracted by her performances of *Violetta* in "Traviatta."

—Captain Francis Cicott, one of the oldest and most respected inhabitants of Detroit, died in that city on the 27th inst., aged 72 years. He was born in Detroit.

—Alfred Stone, one of the proprietors of the Albany *Morning Express*, and one of the most notorious "rats" in the country, died at Saratoga Springs on the 24th. He had been suffering for several months from the effects of a most painful disease.

—Samuel Roberts, of Pekin, Niagara County, N. Y., has four daughters, who, with himself, do all the farm work of 100 acres of land. The eldest daughter, who is only eighteen, plowed twenty acres, and one of the younger sisters dragged in the grain.

POLITICAL.

—The St. Paul *Minnesotian* relates the following incident in relation to Carl Schurz, who is now on the stump in Minnesota:

"This eloquent German orator spoke at Shakopee on Monday, the 19th, and so captivated were his German friends of all parties, that they escorted him out of the city, completely forgetting their peculiar political views. We learn that the Germans are satisfied that they have been misinformed concerning the Republican party, and that the only party of Freedom is the one of which Mr. Schurz is an honored member."

—The Washington correspondent of the New York *Herald* writes that "letters from those who have seen and accompanied Judge Douglas during his recent migrations, represent him as more discouraged with regard to his Presidential prospects than he has been at any time during the last two years. His own private embarrassments weigh upon him heavily. The answer of Judge Black to his copyright manifesto also puzzles him; but he is still more annoyed by the report that Hon. Robert J. Walker is preparing an elaborate historical refutation of his misstatements with respect to the Territorial question."

—The Cincinnati *Commercial* says the Hon. William Dennison, Jr., the Republican candidate for Governor of Ohio, has won largely upon the regard of the people of that State. He has spoken with such candor and manliness, and with such ability, too, that he has made an enviable reputation and largely increased his popularity. He will undoubtedly be the next Governor of Ohio, and we are glad to see his frank utterance of his opinions. His bearing has been what they denominate in Kentucky "gallant," and if the word were not worn out we would use it in reference to him.

—The attempt to galvanize the Americans of Ohio into action for the present campaign, has proved an utter failure. A call for a State Convention was responded to by only about half a dozen persons, who in the absence of any thing else to develope their political genius, passed a resolution in favor of supporting Judge Swan for re-election to the Supreme Bench in opposition to Judge Gholson, the Republican candidate.

—The National Americans of Boston held a caucus the latter part of last week, at which the President of the ward and county committees (E. H. Sprague, Esq.) astonished that beautiful party by announcing his purpose to support the Republican nominees for State officers, and advising them to go and do likewise. This advice was received with expressions of decided dissatisfaction by the larger share of the meeting. Whereat, Mr. Sprague resigned his post on the committee, and the unterrified re-organized and voted to hold another meeting.

—The Washington correspondent of the New York *Herald* says Gideon J. Tucker, Secretary of State of New York, will receive at the hands of the Administration something more substantial than praise or promises.

—The Johnstown (N. Y.) *Independent* repudiates Erastus Brooks' mongrel ticket in the strongest terms.

—"Irrepressible Conflict" clubs are being formed in New York State, the members pledging themselves to maintain an untiring and ceaseless vigilance in opposing the designs of the slave power.

—Edward Everett, who, as all know, "writes for the *Ledger*, is, by authority of the Washington *States*, also to write for Col. Florence's new *Democratic Review*.

—The New York *Herald* classifies the Democratic party of that city as the "rotten Democracy," and the "ruffian Democracy," and the whole as a "public nuisance." The *Herald*, being "one of them," ought to know.

Mr. Dickens not Coming to America.—Lieutenant-Colonel John S. Foster, of the Lecture Committee of Mercantile Library Association, has received the following note from Chas. Dickens:—

Gad's Hill Place, Higham by Rochester, Kent, Wednesday night, 7th Sept. 1859.

Dear Sir:—I beg to assure you in reply to your obliging letter, that you are misinformed, and that I have no intention of visiting America in the ensuing autumn.

Faithfully yours, Charles Dickens.

IMPORTANT POLITICAL NEWS.

Fusion of the Republicans and Anti-Lecomptonites on the Congressional Ticket.

[From the St. Louis Democrat, 28th.]

The overland mail, with San Francisco dates to the 4th, and Los Angelos to the 6th instant, reached here last night.

The political news is important, as will be seen by the letter of our San Francisco correspondent.

Personal.—Mr. Greeley left San Francisco on the 5th, by the steamer. John Connor, tried for the robbery of Wells, Fargo & Co.'s Express of $10,000, was found guilty on the 2d. Mr. Edward P. Dutton, a native of Claremont, N. H., fell dead on the street in San Francisco on the 2d.

By the Los Angelos *Vineyard* of the 6th, we have the following interesting intelligence from Fort Mohave:

"Mr. J. R. Jones, government express rider, reached this city yesterday at 12 M. from Fort Mohave, having left there on the evening of the 1st inst. Mr. Jones brings us information that on the last day of August the Mohave Indians, to the number of about one hundred and sixty, came in, suing for peace. Major Armstead gave them a cool reception, and informed them that if they wished to live in peace, he was willing, but they must cede and relinquish all claim to a valley on the river adjoining, and immediately below the Fort. The Indians manifested much reluctance, but when told by the Major that he was not anxious to make peace, that he rather preferred to fight them, they acquiesced, in consequence of which a treaty was celebrated, and Major Armstead sent word to Lieut. Clark, in command of Company E, 6th Infantry, that his services were not required on the Colorado River."

LETTER FROM SAN FRANCISCO.

Union of Anti-Lecompton Democrats and Republicans upon Baker and McKibben for Congress—A Sensation Paper—Election Prospects—Departure of Mr. Greeley.

[Special Correspondence of the Missouri Democrat.]

San Francisco, September 5th, 1859.

Very fickle do we find the political movements as the day of election draws near. Only a few days ago the Republican State Central Committee issued an address declaring in the most positive manner, that no Union could be effected upon Congressmen between the Republicans and Anti Lecomptonites. That statement went forth to the public as a fact settled beyond controversy. Yet, upon the heels of it an *union* is effected and all the stories to the contrary are thereby proved untrue.

Baker and McKibben are to receive the united support of the opponents of the National Administration, under an agreement of the State Central Committee, representing the two branches of the opposition. Booker, who was nominated upon the Anti Lecompton ticket with McKibben, withdraws in favor of Colonel Baker, and Sibley, the fellow nominee with Baker, withdraws in favor of McKibben. The coalition is perfect, and barring a few grunts from the personally injured, who sought to gratify malice by preventing the union, the ticket will be voted by every anti-Lecompton Democrat and Republican in the State. Its success is probably dependent upon the efforts of their friends to communicate the news to remote precincts, in the few days elapsing between the time of the compromise and that of election two days hence. The Lecomptonites are spiurging and kicking around like young puppies in a mill pond, fearing the defeat of Scott and Bunch. May their fears be well founded.

A White Girl Eloping with an Indian—Her Return to Her Home.

The Palmer (Mass.) *Journal* states that a young girl, fifteen years of age, daughter of a wealthy merchant, residing in Harrison Square, Dorchester, decamped with a party of Indians who were some time since encamped at East Boston, but who have since removed to Ware, Massachusetts.

John Newell, one of the Indians, was the recipient of the maiden's affections. It seems that John returned to East Boston last week, and on Thursday, Sept. 22, returned, in company with the girl, to Ware. At first they stopped at the hotel, but subsequently took up their quarters in the Indian tent near the village, the girl sleeping upon the ground with her dusky companions.

The father having missed his daughter, sought for her in the towns near Boston, but not finding her, made use of the telegraph, and thus ascertained her whereabouts. He reached Ware early on Sunday morning, and proceeded directly to the Indian tent, where he met his daughter. John stated that the girl proposed and planned the whole thing—that she was as pure and virtuous as when she left her father's roof, and though they had slept in the same tent for three nights, they had slept apart from each other. This statement was confirmed by John's brother and his wife, who had slept in the tent with them each night. John seemed very penitent, while the girl stated that she took this means to plague her step-mother, who had ill treated her. She hid her clothes in a school house the night before starting, and the next day went home to attend school at South Boston, met her Indian lover, and fled with him to Ware.

The father was disguised in dress, and endeavored to keep his name and residence a secret. He returned, with his daughter, the same day.

A Daring Abduction.

A New Orleans letter writer gives the following account of a daring abduction recently attempted near that city:

An extraordinary and rather ludicrous attempt at abduction was made in the lively suburb of Algiers, across the river from this city, the other day, anything more than an allusion to which has not got into the papers, because, I presume, of the influence exerted by the parties concerned to suppress it. The circumstances are these: A gentleman of respectability among his Algerine fellow citizens was returning home just before nightfall, and heard screams issuing from his house as he approached it. Quickening his steps, he arrived just in time to see a robust fellow rush out of the door, bearing the shrieking partner of his bosom, a woman, pretty, and yet youthful, over his brawny shoulders, as a rag picker would his long bag. Her head hung down behind, and her widly tossing arms, while he confined her feet in front; with his lovely burden thus gracefully bestowed, the unexampled ruffian was making rapid tracks for the neighboring swamp woods. The husband, indignant and noisy—for he had a better excuse for swearing than "our army" had in Flanders—pursued the fugitive, and gained so rapidly on the encumbered chase that he was fain to drop his fair booty in the mud and make good his own escape, which he succeeded in doing. When sufficiently recovered to do so, the lady related how the fellow had entered the house and endeavored to take liberties with her person, but being incensed by her determined resistance, and alarmed lest her screams should bring assistance, he determined to re-enact, in a small, one-horse sort of way, the classic 'rape of the Sabines,' and so snatched up his victim, that he might bear her away to a safe place to accomplish his vile design.

Terrible Railroad Accident.

On Tuesday evening last, the boiler of a locomotive attached to a freight train on the Baltimore and Ohio Railroad, exploded at Cameron Station, twenty-eight miles east of Wheeling, with terrible effect, blowing several of the cars to pieces, killing Mr. Winters, the conductor, John Harris, the engineer, and —— Dawson, a fireman, and very seriously injuring seven others, two or three of whom, it is feared, will not survive.

Those who witnessed the accident say they never beheld a more powerful explosion, and that half a dozen kegs of powder could not have been more so. The tender and two or three of the cars were entirely demolished, hardly two planks or boards remaining together, while pieces of the boiler were thrown to the distance of nearly half a mile.

Three of the men injured were on the fourth, fifth and seventh cars from the locomotive, and were hurt either by the collision of the cars or fragments of flying iron.—*Cincinnati Commercial*, 28th.

MISCELLANEOUS ITEMS.

An Immense Oyster Bed Discovered.—The *Tribune* informs the world that a special Providence has intervened to save the oyster-eaters from the tax which Virginia proposes to levy on oysters exported from her waters. Last week a party of five oystermen, while up Long Island Sound, accidentally discovered an oyster bed off Eaton's Neck, Long Island, about opposite Norwalk, Conn., which, upon examination, proved to be at least three miles in length by two in breadth, the bed being at least a foot thick, and composed of the largest 'East Rivers' ever seen in this market. The discoverers swore each other to secrecy, and resolved to make their fortunes; but one of the party, going among the oystermen of City Island, basely betrayed the secret for $500. The result has been that over two hundred vessels have been at work on the bank, fishing up the bivalves, and planting them for market purposes. On Monday last, a steamtug went up, and in a few hours landed over five hundred bushels at Rocky Point, Long Island, which, for quality and size, are said to surpass anything that ever came from Virginia waters.

Hon. William D. Bishop, Commissioner of Patents, has issued a circular defining the difference between an engraving, which is the subject of a copyright, and a label, which is the subject of a patent only. A copyright costs fifty cents, and gives a monopoly for twenty years, while a patent costs fifteen dollars, and gives a monopoly for but seven years. The Commissioner decides that when a production is issued as a work, and is intended for sale as such, it may be copyrighted; but that when not produced for sale as a work of art, but evidently for a label, it falls under the patent laws.

Seduction—A Father's Revenge.—Buena Vista, Tennessee, was the scene of a tragedy a few days since. Some weeks since, Mr. John F. Jackson, and opulent gentleman of that village, was informed that his daughter, a lovely girl of eighteen years, had been seduced by Dr. F. M. Bunch. He forthwith sought the man who had brought disgrace upon his name, and demanded that he should repair the wrong by marrying his victim. The Doctor declined at the time, and Jackson gave him three weeks to reconsider or leave the country. At the expiration of that time, Bunch still declining to heal the wounds he had inflicted, the determined parent, restive with the sense of wounded honor and desperation, shot Bunch down in his office. He died instantly. Jackson delivered himself into custody, and when our informant left, was in the Paris (Tenn.) jail.

Young Moseley Dead.—Willie Moseley, who was injured by the accident on the Milwaukee and Minnesota Railroad, on Monday morning last, died the same evening about eight o'clock. His mother, who was sent for, arrived a short time previous to his death. The sufferer experienced the most intense agony, which he bore with patient fortitude until death relieved him. His remains were brought to this city yesterday.—*Milwaukee News*, 28th.

WESTERN ITEMS.

The Peoria, Oquawka and Logansport R. R.—The workmen yesterday commenced on the Logansport connection of the Peoria and Oquawka Road, at Gilman. It is the intention of the engineer, from whom we get our information, to work three gangs of hands, continually, until the work is completed. Eighteen miles have already been laid east of the intersection of the Toledo and New Salem Road, leaving only twenty-two miles to be laid between that point and Logansport. The track is all graded. The other two gangs of men which are to be put on will be stationed, one at Logansport, working west, to the eighteen miles already completed, and the other just west of the Toledo and New Salem Road, working west to meet the gang which commenced yesterday at Gilman. These two have only forty-six miles to lay, and the whole will probably be completed by the 1st of January next. The whole distance between Gilman and Logansport is eighty-six miles—just the distance from Peoria to Gilman.—*Peoria Transcript*, 28th.

A Shocking Accident.—A shocking affair occurred about half-past six o'clock, last evening, just over the river, on the Eastern Extension Railroad. A party of some thirty workmen were coming in from the machine shops on a large hand-car, when they ran over a colt on the track, throwing the car off and killing a man named Smith and wounding four others. He was thrown in front of the car and run over. The parties who were injured were Perley Haines, John Seed, machinist, —— Gorsuch, carpenter, and one other whose name we did not learn.—*Peoria Union*, 28th.

Boiler Explosion.—A steam boiler in the distillery of Rupert & Co., at Pekin, Ill., exploded on Friday last, doing damage to the machinery and works to the amount of $5,000. The explosion is said to have been caused by the carelessness or incompetency of the engineer. Very fortunately, no person was injured.—*Peoria Union*, 28th.

Sudden Death.—Last evening, about five o'clock, an elderly gentleman, a resident of Galena, Ill., named F. H. Metzgar, who was here on a visit to his son and daughter in upper town, fell on the floor of the house, and died in a few minutes. He had been ill of consumption a long time, but was not considered dangerous. He was a member of the Odd Fellows, who will superintend the transportation of his remains home to-day.—*St. Paul Minnesotian*, 20th.

A Libel Suit.—There is a suit for libel pending in the Circuit Court, and to be tried this term, which involves a question of some interest. The libel is the alleged improper protest of the note of the plaintiff by the officers of the State Bank in this city, for which he claims compensation. The argument on a demurrer to the complaint, which raised the legal question whether a protest could be a libel, was heard day before yesterday, and decided by the Court against the demurrer—that is, the Court held that an improper protest might be libelous. The case, of course, is yet to be tried on its merits.—*Indianapolis Journal*, 28th.

Mysterious Murder.—A shooting affair, which is somewhat wrapped in mystery, occurred at Walshville, Montgomery County, a few days ago. A young man by the name of Robb had recently returned from Kansas with another young man, formerly from Indiana, from whom he had bought a claim, for which he had agreed to pay on his arrival at his home in Walshville. On Monday night the two young men having gone to the barn to sleep, the report of a pistol was heard in that direction, and the Indianian came running to the house, shot in the cheek. The inmates of the house went to the barn where he had been sleeping, and found near the spot a Colt's revolver and a powder flask. The revolver was new, and neither young Robb nor his late companion recognized it, and both denied ever having owned one. Young Robb, however, was bound over for his appearance at the next term of the Circuit Court.—*Springfield Journal.*

FIFTH AVENUE HOTEL,

ON FIFTH AVENUE,

At the Intersection of Broadway, opposite Madison Square, NEW YORK.

To be Opened August 23d, 1859

This location is the most desirable of any in this great metropolis, being the most healthy, delightful, and central in the city, and very near and convenient to the Hudson River and Boston Rail road Depots.

The entire arrangements of the establishment are the result of mature study and experience, and render it the most comfortable and home like hotel in the world.

All the improvements that comfort and convenience have suggested, have been introduced.

Every precaution has been taken, during construction, to secure the positive safety of guests from the danger of conflagration. Subdivision double brick walls extend from the rock foundation to the roof. All of the floors are double, and are separated by a layer of cement, making the entire structure fire-proof.

Among other important improvements, in addition to the usual stairways, a Vertical Railway is nearly completed to convey guests from the first to the upper floors, upon a plan which admits of no possibility of accident.

Lofty, spacious and continuous corridors, forming a promenade of eight hundred feet upon each of the six stories, give light and air, in the highest degree, to every apartment.

A liberal space has been appropriated to public Drawing-Rooms and Parlors, connecting which and the Dining Rooms there is a grand Promenade Hall. Suites of spacious Parlors, Chambers and Dressing Rooms, with all the modern conveniences, have been especially designed for the comfort of families, travelling parties, and single gentlemen.

An Exchange, containing the Journals of the day, and all the conveniences for commercial intercourse and business, has been added to the many other features of the Hotel, and there is a Telegraph Office connecting with all parts of the country.

Billiard and Chess Rooms of the most approved style and appointments, are provided for the use of guests and the public.

The Furniture, and every article of use in the establishment, has been expressly designed and manufactured for the Fifth Avenue Hotel.

All communications for apartments, or upon any business connected with the house, please direct to "Fifth Avenue Hotel," in order to insure immediate attention.

The entire organization of this Hotel has been under the direction of Mr. Paran Stevens, proprietor of Revere and Tremont Houses in Boston, and Battle and Point Clear Houses in Mobile.

MORE TO BE ADMIRED

THAN THE

RICHEST DIADEM

EVER

Worn by Kings or Emperors.

What? Why a Beautiful Head of Hair.

Because it is the ornament God Himself provided for all our race. Reader, although the rose may bloom ever so brightly in the glowing cheek, the eye be ever so sparkling, the teeth be those of pearls, if the head is bereft of its covering, or the hair be snarled and shriveled, harsh and dry, or worse still, if sprinkled with gray, nature will lose half its charms. Prof. Wood's Hair Restorative, if used two or three times a week, will restore and permanently secure to all such an ornament. Read the following and judge. The writer of the first is the celebrated Pianist, Thalberg:

New York, April 19, 1858.

Dr. Wood:—Dear Sir: Permit me to express to you the obligations I am under for the entire restoration of my hair to its original color; about the time of my arrival in the United States it was rapidly becoming gray, but upon the application of your "Hair Restorative" it soon recovered its original hue. I consider your Restorative as a very wonderful invention, quite efficacious as well as agreeable.

I am, dear sir yours truly, S. THALBERG.

"Drych a'r Gwyliedydd."

Welsh Newspaper office, 13 Nassau-st., April 12, 1858.

Prof. O. J. Wood:—Dear Sir: Some month or six weeks ago I received a bottle of your Hair Restorative and gave it my wife, who concluded to try it on her hair, little thinking at the time that it would restore the gray hair to its original color, but to her as well as my surprise, after a few weeks' trial it has performed that wonderful effect by turning all the gray hairs to a dark brown, at the same time beautifying and thickening the hair. I strongly recommend the above Restorative to all persons in want of such a change of their hair.

CHARLES CARDEW.

New York, July 25, 1857.

Prof. O. J. Wood:—With confidence do I recommend your Hair Restorative, as being the most efficacious article I ever saw. Since using your Hair Restorative my hair and whiskers which were almost white have gradually grown dark; and I now feel confident that a few more applications will restore them to their natural color. It also has relieved me of all dandruff and unpleasant itching, so common among persons who perspire freely.

SANFORD'S LIVER INVIGORATOR,

Never Debilitates.

It is compounded entirely from Gums, and has become an established fact, a Standard Medicine known and approved by all that have used it, and is now resorted to with confidence in all diseases for which it is recommended.

It has cured thousands within the last two years who had given up all hopes of relief, as the numerous unsolicited certificates in my possession show.

The dose must be adapted to the temperament of the individual taking it, and used in such quantities as to act gently on the Bowels.

Let the dictates of your judgment guide you in the use of the LIVER INVIGORATOR, and it will cure Liver Complaints, Bilious Attacks, Dyspepsia, Chronic Diarrhoea, Summer Complaints, Dysentery, Dropsy, Sour Stomach, Habitual Costiveness, Colic, Cholera, Cholera Morbus, Cholera Infantum, Flatulence, Jaundice, Female Weaknesses, and may be used successfully as an Ordinary Family Medicine. It will cure SICK HEADACHE, (as thousands can testify,) in twenty minutes, if two or three Teaspoonfuls are taken at commencement of attack.

LIVER INVIGORATOR.

All who are using it are giving testimony in its favor.

☞ Mix Water in the mouth with the Invigorator, and swallow both together.

Price One Dollar per Bottle.

—ALSO—

Sanford's Family Cathartic Pills,

COMPOUNDED FROM

PURE VEGETABLE EXTRACTS and put up in GLASS CASES AIR TIGHT, AND WILL KEEP IN ANY CLIMATE.

The Family Cathartic PILL is a gentle but active Cathartic which the proprietor has used in his practice more than twenty years.

The constantly increasing demand from those who have long used the PILLS and the satisfaction which all express in regard to their use, has induced me to place them within the reach of all.

The Profession well know that different Cathartics act on different portions of the bowels.

The Family Cathartic Pill has, with due reference to this well established fact, been compounded from a variety of the purest Vegetable Extracts, which act alike on every part of the alimentary canal, and are good and safe in all cases where a Cathartic is needed, such as Derangements of the Stomach, Sleepiness, Pains in the Back and Loins, Costiveness, Pain and Soreness over the whole body, from sudden cold, which frequently, if neglected, end in a long course of Fever, Loss of Appetite, a Creeping Sensation of Cold over the body, Restlessness, Headache, or weight in the head, all Inflammatory Diseases, Worms in Children or Adults, Rheumatism, a great Purifier of the Blood, and many diseases to which flesh is heir, too numerous to mention in this advertisement. Dose, 1 to 3.

CATHARTIC PILLS.

Price Three Dimes.

The Liver Invigorator and Family Cathartic Pills are retailed by Druggists generally, and sold wholesale by the Trade in all the large towns.

TO THE BE-DRUGGED AND

Poisoned Citizens of Chicago.

You are overrun with a deluge of the vilest compounds in the form of

"ALCOHOLIC DRINKS"

That ever emanated from that pest of society, the Liquor Mixer.

They are sold to you as a luxury, or they are dispensed to you as a medicine, and in either case the effect is the same.

There is but one way to escape, and that is to use as a luxury or a medicine, a safe and reliable stimulant, sold under stamp and seal, which renders it certain that it has not been tampered with. Such an art

Charles' London Cordial Gin,

Which is distilled under inspection of the British Government, is delicately flavored (unlike any other Gin) with some of the most valuable restoratives of the

VEGETABLE KINGDOM,

And is by far the most healthy beverage extant.

The most eminent physicians of Europe and America, not only recommend its use by the hale and hearty, but prescribe it as a medicine where a stimulant is required.

The female sex will find it not only a pleasant

CORDIAL,

But a certain relief in sufferings of a periodical character.

Analytical chemists of all ranks pronounce it perfectly pure, and its restorative merits incomparable.

Sold only in quart and pint bottles by all Druggists, Grocers, etc.

Special Notices.

☞ Chills and Fever! Chills and Fever!! Chills and Fever!!—One of the greatest remedies that has ever been laid before the public, for Fever and Ague, and which has received the highest encomiums from the press and the people, is DR. J. HOSTETTER'S CELEBRATED BITTERS. Who would endure the tortures arising from this terrible disease, when it can be so easily cured? Who would endure sleepless nights, burning fevers and icy chills alternately, when a remedy can be obtained for a mere trifle? And yet how many families linger out a painful existence under this deadly blight, and do nothing but gulp down quinine, until it becomes as common as their daily meals; and yet they are not relieved. None but the foolish and weak would hesitate to procure these valuable bitters, and save themselves intense agony.

For sale by druggists and dealers generally, everywhere. se21 d&w2w

Formerly of Louisville, Ky. now of Chicago Illinois, the distinguished operator on the Eye and Ear, is miraculously giving sight to the Blind, Speech to the Dumb, and Hearing to the Deaf. Upwards of twenty-eight hundred patients have been received by Dr. U. within the last eighteen months, several of whom have been deaf and dumb from infancy, have been made to hear and speak. Many others who have been totally blind and deaf for months and years have had their Sight and Hearing restored instantly by delicate and critical operations, while others who have long suffered from disease have been speedily and permanently cured by mild and gentle means. Patients at a distance can have medicine sent them, (where surgical operations are not required) by giving a description of their cases.

LOTS FOR SALE AT LAKE FOREST ILLINOIS.
The lots belonging to LIND UNIVERSITY, and now offered for sale present favorable inducements to persons wishing to enjoy the pleasures of country life within an hours ride of the City of Chicago.

They are located at Lake Forest on the west bank of Lake Michigan, elevated one hundred feet above the level of the Lake, about twenty six miles north from Chicago, on both sides of the Chicago and Milwaukee Railroads, abound in mineral and other springs and natural beauties, and in the opinion of our best physicians the advantages for a healthful resort and residence are not to be exceeded by any on the sea shore or in the Western country.

Acme Academy building (the preparatory department of Lind University) has been erected the past season, and is now in successful operation in charge of S. F. Miller, A. M.

A new Passenger Depot, a Store and more than a dozen dwellings have been erected within the past year.

In addition to the regular through trains an accommodation train taking passengers on commutation tickets a half the regular fare, leaves Chicago every evening, and returns every morning thus affording business men an opportunity to spend the day in the city and be with their families at night.

A good hotel has been opened and in successful operation for more than a year past.

The Lake Forest Association have also a few lots, mostly for farming purposes, lying near the town, containing from three to ten acres each, which will be sold at reasonable prices, and on usual terms.

The subscriber has within the past year sold over twelve thousand dollars worth of the lands belonging to the University and Association, and proposes to sell a few more lots to persons who wish them for immediate improvement and cultivation.

For further particulars apply to Peter Page, No. 11 Washington street, or address him through the Post Office. Box 295, Chicago, Illinois. PETER PAGE, Agent.

Educational.

RACINE COLLEGE.—
In consequence of a union between Racine College and St. John's Hall, the former has become the Collegiate Department of Nashotah House. It still, however, continues to receive all those desiring a liberal education for other professions and vocations than the Holy Ministry.

The admirable buildings and pleasant location of the College are so well known already that nothing need be said in relation to them. It is intended to conduct in them a thorough Church College on the principle of strict discipline and careful religious training

There are to be two Departments, a Collegiate Department and a Grammar School, both under the same Rector and Faculty. All students passing the regular examinations, will be received into the Freshman Class of the College.

The new building, Kemper Hall, recently constructed at a cost of more than $12,000 will be used more especially as a Grammar School. Young men and boys from the age of eight and upwards, will be received into the different classes of the Grammar School, according to their respective proficiency. In connection with the usual four years course of the College, there will be also a shorter course, which those desiring simply an English and not a Classical education, will be able to follow.

The annual charge for each student will be $200, to be paid strictly in advance, one half on entering and the remainder on the 1st of March. There will also be a charge of $25 entrance fee, for each student.

The annual charge will include board, lodging, fuel, washing, lights tuition and necessary furniture.

The College Term will commence, (D. V.) on Wednesday, October 5th. The Grammar School will not be opened until November 1st.

The Term will close on the 25th of July. There will be a short recess at Christmas and Easter. All students will board in the College.

For further particulars apply by letter to Rev. JAMES DEKOVEN, at Delafield, until Sept. 29th; after that date at Racine College, Racine

Persons in Chicago can apply to Rev. R. H. CLARKSON, Rector of St. James' Church. se22 a490 4t my&thy 2w

THE VAN NORMAN INSTITUTE,
An English and French School for Young Ladies,
Nos. 3 and 5 West 38th Street,
Murray Hill, two doors from Fifth Avenue, New York will re-open on the 14th day of September next. The Institution occupies the highest and, in all respects, the most desirable location for school purposes in the city. The buildings, planned expressly for the school, are warmed by means of hot water furnaces, thus securing the two fold advantage of a larger influx of pure air, and a bland, summer-like temperature. A large airy room, occupying one entire story, is set apart for Calisthenic exercises, and the cultivation of personal graces, attention to which constitutes one peculiar feature of the school.

The Principal is assisted by Ladies of the highest qualifications for their vocation.

The ablest masters are employed for French, Italian, German, Piano Forte, Harp, and other accomplishments.

Among his friends and patrons the Principal refers to Rev. Randolph S. Foster, D. D., President of The Northwestern University; Orrington Lunt, Esq., of Chicago; Rev. Robert Baird, D. D., and Rev. J. Holmes Agnew, D. D. of Yonkers, N. Y.; Rev. John McClintock, D. D., President of The Troy University; Rev. Thomas DeWitt, D. D., Rev. Abel Stevens, LL. D., Rev. Asa D. Smith, D. D., Rev. AN UP-COUNTRY LETTER.

Three Years ago and now—Uses of the Packet—Beauty of the Upper Mississippi—Longings for a ripened condition of society—Prairie Du Chien—Fort Crawford—The Muster Roll of the Great Captain—General Taylor and the Whisky orders—Difference in the appearance of the towns after arriving at Dubuque—La Crosse—The Mormon Temple—Society of Icarians.

[Correspondence of the Press and Tribune.]

UPPER MISSISSIPPI RIVER, Sept. 15th, 1859.

In the early morning as the packet glides down stream past the sandy shores of La Crosse, I commence at one and the same time a letter and a journey, and hope that the one may not prove tedious to the reader nor the other to the writer.

To any one who was acquainted with the magnitude of the travel on the Upper Mississippi three years ago, the change wrought by the hard times would be plainly evident. In those times in a day's travel on one of the steamers, all through the cabins and out upon the crowded deck, one saw eager little groups of persons discussing the price of land and town lots, or canvassing the probability of the trade of the northwest being diverted to this or that embryo city, whose only evidences of existence were an unpainted frame house and a town plat. Now and then shrewd looking individuals, the underside of whose coat sleeves were worn threadbare with carrying the aforesaid town plats under their arms, would hold forth on the incomparable advantages of some particular site, and in prophesying its future population and prosperity, would lavish railroads, steamboat lines, mines, banks, manufactories, colleges, etc., upon it as freely as though they were to be had for the asking.

The packet was a kind of moving exchange. A man went on 'change and down the river at the same time. There everybody met everybody else; real estate was sold, money changed hands, and things went on as swimmingly as the boat did. Now all is changed. Instead of the eager crowds, that could scarcely find sitting room, a few meditative persons, with hands behind their backs, pace up and down the long cabins, or sit out upon the deck, with their feet on top of the railing, giving the people along shore an excellent view of their boot soles, while they talk, now, no more of lands and corner lots, but of the crop and the prospective price for wheat. The crop now absorbs the attention of all, as the tide which is to set stranded enterprise afloat again. But, alas! many will be found such unseaworthy craft that they will never rise again, and many a railroad and many a city will remain unbuilt.

All day we sped southward—now through expanses of broad, bright river—now threading the mazy island passes, or skimming close under the towering bluffs. Beautiful! beautiful! we exclaim as, across a sunny reach, we see some peak mirrored in the glassy water. Truly, the Upper Mississippi has as much capability for beauty as any river in the world! But, if some reader should ask, "And is not as beautiful?" I for one must answer, No. Its bluffs are as bold, its islands are as green, and its waters as clear as those of the Hudson or Rhine, or Danube, but here no historic names thrill us as we pass—here, as yet, self-sacrificing patriotism, or woman's love, or man's devotion, or "legends fed by time and chance," have no memorial stone.

We are surfeited sometimes with this country of endless beginnings, and ask for results; long sometimes for a civilization that has been mellowed and ripened, even though it be like that of Europe, through the agency of oppressions and wars and risings-up, and all the national vicissitudes which make history, and which only seem to show that "truth crushed to earth will rise again," and like Mary of Scots, or Joan of Arc, were more lovely for her sufferings. I say sometimes these longings and dissatisfactions overtake us, and only sometimes, for when we contemplate the possibility of these our homes becoming future Solferinos, or Magentas, or the theatres of such oppressions as should call forth a Tell or an Arnold Winkelreid, we are willing to forego the romance of history and say, "rather than such a ripening as this, let us drop into the sea of forgotten things, and make no more mark than have the vanished nations of Mexico—gone like a wind that blew a thousand years ago."

Occupied with such thoughts, with reading, and selecting sites for villas, the forenoon slipped away, and at noon the boat's whistle sounded at Prairie du Chien.

This oldest of the settlements of the northwest dates its beginning far back into the days when Jesuitism reached out into the wilderness to gather the red heathen into the bosom of the Catholic Church; into the days when the French, by a line of forts extending up the Mississippi on one hand, and up the St. Lawrence on the other, endeavored to cut the British off from the great fur trade.

The town is divided into two parts by a slough; that part which is about half a mile from the river wears a modern face, but the old town on the bank of the river looks like a hospital for superannuated houses.

At the lower end of the town is old Fort Crawford, vacated by the troops ten years ago, but now filled with squatter claimants. Some years after its abandonment, the present writer visited it. Tall weeds stood sentinels at its gates and had woven barricades across its inner doors. Through the officers' quarters, the chapel, the magazines, the block houses, I passed. All were empty and open to the wind. The waifs and estrays left by the troops had been collected in to one room, though it was open like the rest. The floor of this room was covered to the depth of nearly a foot with loose documents and papers.

Seated on one of those leathern fire-bucket contrivances which in old time were yclept "bats," and which seemed to have been made for the express purpose of torturing soldiers' heads, I commenced to rummage the heaps of abandoned papers. A large portion of them were letters, some in relation to Indian warfare more than thirty years ago, and among the many names appended to them were some that afterwards became familiar to the public during the Mexican war, and some who had answered to the "right-about!" of that great captain, Death. I found their names on his muster roll in the grave yard under the walls of the fort.

Whisky, it seems, was in those days an important article of amunition, and many were the written orders for extra supplies of that fulminating agent, supplied to parties of "troops sent in pursuit of Indians." Army regulations require a written order from the commandant for all supplies furnished to soldiers over and above their regular rations; accordingly, to numbers of these orders for extra whisky, was attached the bold fist of "Zacary Taylor, Colonel commanding." Many letters were addressed to him, but I found his signature attached to no other documents than the whisky orders. So I preserved a couple in memory of Old Zack.

On arriving at Dubuque and Galena, a difference between the manner of their construction, and that of the towns further up the river, is manifest. Nearly all the houses in these places are built of brick, in a very substantial and enduring manner. In Galena the streets are hewn out of the solid rock. In Dubuque beautiful avenues are engineered around and among the cliffs.

The up-river towns with the exception of St. Paul are built almost entirely of wood and when viewed from the mountainous heights in their rear, the white houses and the unbroken sod in the streets give them the appearance of tented fields.

LaCrosse has some features peculiar to itself. Some time in the uncounted ages that were slipped in between the beginning and the present time, the prairie on which LaCrosse is built was a sand bar. A thin skin of soil a foot or two in thickness has collected over the bright yellow sand. Where this top covering has been removed, as it has in the streets near the river, one might easily fancy himself on one of the river bars in time of low water. But what will not Yankee invention do! Shades of Nicholson and Macadam avaunt! They pave the streets with straw! Much of the real estate changes owners without the consent of parties, and after a windstorm the possessor of a leeward lot owns less than he did before. Not a very large proportion to be sure, considering that a man owns his lot from the top of the sky to the centre of the earth, but often enough to be an eye-sore to neighbors.

We left Galena yesterday morning, and just at sunset the same day we whisked through the much talked of Rock Island Bridge.

This afternoon, far down the mile wide river and on the summit of a hill, about a hundred and fifty feet above the water, there came into view a white object like a tower, quivering in the heat of the afternoon sun. On nearer approach, this proved to be the front and a remnant of the side wall of the Mormon Temple at Nauvoo. The bold impostor, Prophet of Mormon, could not have selected a more commanding site for his temple. The river sweeps around it in a semi-circle of three miles in extent, and from three sides of it the land slopes gradually to the shore a mile away. It was built of a coarse gray marble, immense quarries of which are found in the vicinity.

It was two and a half stories in height, the attic or half-story windows were circular, and nearly as wide as the main windows, which were of the ordinary proportions. A circular window, like those above, was also interposed between the main upper and lower story windows, making it appear as though there was a half story immediately above the first floor. Alternate with the windows on the outside of the building were pilasters, on whose capitals were carved in bas relief, the bust of an angel holding a trumpet in each hand. The bases of the pilasters were ornamented with the figure of a half moon.

The society of Icarians who came to dwell at Nauvoo after the departure of the Mormons, procured from the fallen portion of the temple walls the material for building their large school house. Their other buildings, common dining hall, workshops, etc., are close to the temple. The Icarians, with a refinement characteristic of the French mind, have refrained from pulling down any portion of the temple walls which seemed solid, but have let it stand, a picturesque ruin, its noble front facing the long route by which its deluded builders have gone. The houses of the Icarians themselves will soon be vacant; the buildings of the visionary clustered around the temple of the fanatic, and all the deserted houses that dot the slope between the temple and the river will wait, and wonder what other human delusion will next build its alters on the summit of the hill. F.

WHIPPLE, ALLEY & BILLINGS.
Manufacturers and Wholesale Dealers in
Boots, Shoes and Rubbers,
189 SOUTH WATER-ST., CHICAGO.
Are now prepared for the Fall Trade, with an unusually large stock of goods suited to the Western Trade, which will be sold for cash, or prompt pay, at Boston and New York Jobbing Prices. The attention of Western Merchants is called to our stock of MEN'S KIP, CALF, AND THICK BOOTS, of our own manufacture and warranted. Ladies, Misses, and Children's Work, from our manufactory in Brighton, Maine.
In this class of goods we can furnish styles and qualities which cannot be found elsewhere in this market; and in prices we can give our customers the benefit of the profit and commissions usually paid to jobbers at the East. We can also, in these goods, furnish ANY SIZES which may be desired giving a great advantage to those who are "sorting up" their stock. We are agents for
Mitchell's Copper Tipped Boots and Shoes.
We respectfully solicit an examination of our stock.

SOMETHING NEW!!!
MITCHELL'S PATENT
Metallic Tipped Boot and Shoe.
An improvement has been applied to Boots and Shoes, by which a Great Saving in Expense is made. Every Boot and Shoe Dealer knows that Children will wear out at the toe the best-constructed shoe in four to six weeks, and that it has hitherto defied the skill of manufacturers to obviate this difficulty.
THE "METALLIC TIP,"
meets and overcomes it. A small piece of copper is neatly fastened to the toe of the Boot or Shoe affording a complete protection to it, and rendering the effort of the most inveterate stamper ineffectual to kick or wear it out.
We present this invention to the fullest knowledge of and experience in its Practical utility. Having now for nearly two years been subjected to the severest tests, it has by its own intrinsic merits, actually surmounted every objection that could possibly be brought against it, and the accompanying certificates which are but a fair average of hundreds of others will abundantly corroborate. We have no hesitation in saying that the Metallic-tipped shoe is destined to entirely supersede, for Children and Youth the old style; and we consider it a moderate statement that one pair of the Metallic tips will outwear two to three pairs of the old style, making a saving of nearly two thirds in the expense of shoes.
MESSRS. WADSWORTH AND WELLS,

TRUSTEE'S SALE.—Whereas, Samuel S. Hayes and Lizzie J., his wife, of the city of Chicago and State of Illinois, did execute and deliver to me, William T. Barron, as trustee, their certain deed of trust of the premises hereinafter described, bearing date the thirtieth day of March, A. D. 1858, to secure the payment of two certain promissory notes, made by said S. S. Hayes, bearing even date therewith, each for the sum of three thousand one hundred and twenty-five dollars, and payable twelve months after date thereof, to the order of Charles H. Ramsey M. Sibley, and whereas the said deed of trust was duly recorded in the Recorder's Office of Cook County, Illinois in Book 128 of Deeds, on page 459, and whereas default has been made in the payment of said two notes, and application has been made to me by the legal holder of said notes to sell the premises in said deed of trust described for the purpose therein mentioned.
Now, therefore, Public Notice is hereby given that I shall sell at public vendue to the highest bidder for cash, on Saturday, the 8th day of October, 1859, at ten o'clock in the forenoon, at the north door of the Court House in the City of Chicago, aforesaid, in execution of the trust reposed in me by said deed of trust, the premises in said deed of trust mentioned and described, to-wit:—Lots thirty-two (32), thirty-three (33), thirty-four (34), thirty-five (35), thirty six (36), and thirty-seven (37), in the Canal Trustees subdivision of the West half of (½) and west half (½) of north-east quarter (¼) of section seventeen (17), Township thirty nine (39) north of Range fourteen (14), east of the third P. M., in the County of Cook and State of Illinois.
Also lots five (5) and six (6) in block four (4) in Union Park Addition to Chicago, situated in said County and State together with all right and equity of redemption of the said Samuel S. Hayes and Lizzie J., his wife, their heirs, executors, administrators or assigns therein.

MORTGAGE SALE.—Notice is hereby given that default having been made in the payment of the moneys secured on and by a certain Indenture of Mortgage made and executed by Thomas H. Edson, of the City of Chicago, to the undersigned, Hiram A. Tucker, bearing date the 1st day of April, A. D. 1857, and recorded in the Recorder's Office of Cook County, Ill., in Book No. 80 of Mortgages, Page 441, and which said mortgage was given to secure the payment of Four Thousand ($4,000) Dollars.
Now, therefore, I shall, under and by virtue of the power of sale contained in said mortgage, on Thursday, the [illegible] day of October next, A. D 1859, at ten o'clock A. M. of said day, at the north door of the Court House, in the City of Chicago, County of Cook, and State of Illinois, expose to sell at public auction to the highest bidder for cash the following described premises, situated in the city of Chicago, and described in said mortgage as Lot number eleven (11) of Southworth Holmes' Subdivision of the north-half of Block number eleven (11) of Bushnell's Addition to Chicago, in the County of Cook and State of Illinois.

MORTGAGE SALE.—Whereas, Joseph Hurst, to secure the payment of certain of his promissory notes, dated January 28th, A. D. 1857, payable to Michael O'Brien, or order, executed his Mortgage Deed of that date to said O'Brien, thereby mortgaging all those lands in Kane county, Illinois, to-wit: Commencing in the centre of the Galena and Chicago Union Railroad, on the east line of lands owned by George B. Tucker running thence north [illegible] degrees, west along the east line of section one (1) in township forty (40), north of range eight (8), thirty two 25-100 chains, to Truman Gilbert's land, thence north 85½ degrees, east twenty chains (20), thence south ½ of a degree east, parallel with the first line 64 99-100 chains, thence south 89 degrees, west four chains and thirty-six links to the centre of said railroad, thence along the centre of said road 12 chains and 45 links to the place of beginning, containing 79 35-100 acres. Also, a certain other piece containing five acres, lying on the north west quarter of section twelve (12), in a square form, bounded on the south by the Army Trail, and on the east by land owned by Daniel Wheeler, which mortgage was recorded in the office of the Recorder of said Kane county, February 28, 1857, in book 45 of deeds, page 213.
And, whereas, said Hurst has made default in the payment of the last of the notes maturing specified in said mortgage, being for the sum of $700, and, whereas, said mortgage and notes have been duly assigned by said O'Brien to the undersigned, L. C. Paine Freer.
Now therefore, public notice is hereby given that I, L. C. Paine Freer, the assignee of said mortgage, will, in pursuance of power in said mortgage contained, and by reason of such default, sell at public auction, to the highest bidder for cash, at the north door of the Court House in the city of Chicago, on the first day of October A. D. 1859, at 10 o'clock A. M. of said day, all the said mortgaged premises, or so much thereof as may be necessary to raise the money due on said note, interest and costs.

SAFETY A FI

BY TELEGRAPH.

From Washington.

WASHINGTON, 29.—The Secretary of the Navy has made arrangements for the reception of an additional number of acting midshipmen at the Naval Academy farm. For thirty or forty of them, members of Congress from districts which have been the longest time without appointments since as far back as 1855, will be requested to make nominations of youth for admission, in accordance with the existing law.

The treasury receipts for the week ending Monday amounted to $1,599,000. The drafts paid, to $1,408,000. The drafts issued, to $840,000. The amount subject to draft is $5,163,459. The increase over last week is more than $758,000.

Capt. S. M. Miller has been ordered to proceed to Fort Monroe to assume the duties of quarter master general at that point in place of Chipman, deceased.

The President has appointed Mr. G. Jones as Judge of the U. S. Court for the northern and southern districts of Alabama, vice Gayle, deceased. The names of at least ten other gentlemen had been mentioned in connection with that office.

General Jesup, who was seriously sick in New York, has returned to this city, being convalescent.

WASHINGTON, Sept. 29.—The Southern mail brings the New Orleans papers of Sunday last.

The *Picayune* understands that Dr. Holland has succeeded in obtaining an extension of time till 1869 for commencing the construction of the Honduras Interoceanic Railroad.

Review of the New York Market.

NEW YORK, Sept. 29th, P. M.—Stocks this morning were again variable. The tendency, however, was rather downward, at which transactions were fair. Chi. and R. I. rose ¼, Gal. & Chi. ⅛, Panama ¼, N. Y. C. ¼, Pac. Mail 1¼, C. & O. fell ¼, Erie ¼, Cumberland ¼, I. C. ¼, Hudson ¼.

At the second board prices were generally lower, and market very dull except for N. Y. C., which was firm at 81½ both at and after board, with few sellers. Michigan Southern fell ¼, Michigan Central ¼, Panama ¼, Cleveland & Toledo ¼, Chicago & R. I. ¼, Hudson ¼.

In money there is no change. There is perhaps less trouble in getting it, but rates remain firm with a good demand. Sterling exchange is quiet, 1.10½ being the rate for best bankers' bills.

The receipts of the Ill. Cent. Land Department up to the 26th inst. were $46,000. The steamer for Saturday will in all probability take $1,000,000, though only $600,000 is at present engaged.

In other matters there is no important movement.

Breadstuffs are active and firm. Flour has further advanced 10c, mostly on low grades, though all kinds are held with increased firmness. Wheat firm for better kinds, which are not plenty. Corn dull, though only in moderate supply. Sugars higher and more active, especially refined qualities, which are scarce. There is a great deal of competition going on between the different companies. The United States Refining Company quote crushed at 9½c, soft white at 8¾@9c and yellow at 8½@8¾c. Coffee and molasses unchanged.

The Montreal Cricketers.

MONTREAL, Sept. 29.—The new match between the 6 of the united All England with 5 Canadians against six of All England with 5 Canadians was continued to-day. The weather being fine the match will be continued to-morrow. Nothing could persuade the Canadians to part with the English cricketers until the match is played out. They therefore need not be expected to arrive at New York untill Sunday morning. About two thousand persons were present to day at the short notice given, and double that number will probably be on the ground to-morrow. Parr, Jackson, Hayward and Stephenson bowled against the United Eleven. Stephenson or Diver were wicket keepers with Hawward or Diver as long stops.

The score of "all England" in the first innings was as follows: Caffy, 13; Grundy, none; Carpenter, 32; W. S. Smith, none; Kocker, 8; J. Lillywhite, 53; Pickering, none; Wisdom, 48; Fisher, 14; Morgan, 2; Bacon, 7. Byes, &c. 16. Total, 118 runs. The "all England" eleven were bowled against by Grundy and Caffey, Lockyear acting as wicket keeper and Pickering as long stop. At sundown the score stood as follows: Daly, none; Hayward, 18; Coszar, 14; Hardinge, none; Divor, not out, 5; Sweetenham, 3; Parr 1; C. Lockyear, B. Coffin, none. Byes, 3. Total, 43.

Knight's Templars Convention.

UTICA, N. Y., Sept. 29.—The Knights Templars Convention of Grand Commanders of the State of New York, held an election yesterday. The following officers were elected: Chas. G. Judd of Penn Yan, Grand Commander. F. Chamberlain of Albany, D puty Grand Commander. Zenas Priest of Utica, Grand Generalissimo. W. H. Drew having declined. J. T. Wilbur of Hornellsville, Grand Captain General. S. Town of Aurora, Grand Prelate. W. F. Holmes of Rochester, Grand Senior Warden. C. P. Breed of New York, Grand J'r. Jno. S. Perry of Troy, Grand Treasurer. Robt. Marcy of New York, Grand Recorder. Aaron Carver of Little Falls, Standard Bearer. E. D. Sheeler of Lockport, Grand Sword Bearer. C. H. Webster of Binghampton, Grand Warden.

The Pennsylvania Fair.

PHILADELPHIA, Sept. 29.—The State Agricultural Fair was attended to-day by 50,000 persons. The display, in all departments, is highly creditable. The trial of steam fire engines commenced yesterday, and will be concluded to-morrow. The tallest playing yet, was made by the steamer Baltimore, built by Pool & Hunt, having a pump inserted by Geo. W. Fulton, of Steubenville, Ohio. Washington engine, of this city, similar in construction but larger, will be tried to morrow. Premiums for hand engines, first class, was competed for this P. M. by Citizen Fire Co. of Harrisburg, and Assistance Fire Company, of this city. Premium was awarded to the latter. Assistance threw 183 feet perpendicularly, and Citizen 196 feet; 30 feet were allowed to Assistance, her chamber being only nine inches, while the Citizen is twelve.

Distressing Calamity at Albion, N. Y.

ALBION, N. Y., Sept. 28.—A distressing accident occurred here to-day, which resulted in severe loss of life. The County Fair of Orleans county is being held in this vicinity, and during this afternoon, a large crowd gathered on the canal bridge on Main street. The bridge suddenly gave way under their weight, and the whole party was thrown into the canal, and many were drowned before assistance could be rendered. The loss of life is estimated at 18, though it is supposed that many bodies are still in the water. A large number received severe injuries.

The Case of Bishop Onderdonk.

NEW YORK, Sept. 29.—The Episcopal Diocesan Convention is now in session here. Bishop Onderdonk has withdrawn his petition to the House of Bishops, asking for a termination of his sentence. This was done this morning in an informal manner. The withdrawal of the petition is looked upon by the opponents of his restoration as only an expedient to avoid bringing the subject up for debate, and to send the petition to Richmond, at the general Convention, without passing them in review here.

Tragedy at Pekin, Ill.

PEKIN, Ill., Sept. 29.—A fracas occurred this morning in a house of ill-fame in the southern part of the city. Henry Barry was stabbed by a man named John Boutziter, and instantly killed. From circumstances attending the arrest of two burglars, Slocum and Kennedy, some weeks since, and from the fact that Barry was the principal witness for the prosecution, it is supposed that the only intention was to put Barry out of the way and thus prevent the conviction of Slocum and Kennedy. Boutziter has not yet been arrested.

Senator Chestnut makes a Speech.

The Charleston *Courier* contains the speech of Senator Chestnut, delivered yesterday at Camden. He favors Southern unity and the development of her resources, repudiates the agitation of the opening of the slave trade, and opposes the position of Senator Douglas about unfriendly territorial legislation.

Balloon Ascension.

ROME, N. Y. Sept. 29.—Prof. Coe, accompanied by Mr. Cottman of Rome, made a balloon ascension to-day. When at the height of two miles the balloon burst and turned up into the netting, and formed a parachute. The voyagers, after a perilous descent, landed safely in a swamp three miles from the starting point.

Firemen on an Excursion.

TRENTON, N. J., Sept. 29.—The Empire Engine Association of Lynn, Mass., arrived here at noon to-day. They will remain as guests of the Fire Department of this city till 5½ o'clock to-morrow P. M., when they will leave for Philadelphia in a special train.

Financial and Commercial.

MONETARY.

FRIDAY EVENING, Sept. 29, 1859.

Financial matters have been exceedingly dull and unchanging for the last few days. Exchange, if anything, is rather weaker, but rates are still 2 per cent premium. This is a high figure, but if discount on Illinois and Wisconsin currency be included, it is about the same figure in St. Louis.

Gold 2 per cent premium, with no demand for local purposes. Discounts are confined to strictly business paper at legal figures, viz: 10 per cent. The bankers report money close. Transactions outside the banks are too few to deserve quotations.

NEW YORK.—The *Herald* of yesterday has the following paragraph:

These shipments of specie, and the recent advance in exchange, have imparted more activity to the money market, though there is, as yet, no such demand for money either from South or Wall streets as can sustain an advance in rates. The leading discount brokers report an increased unwillingness to buy long paper; the market for paper over 60a90 days is very firm at seven per cent., if sales were forced, it is likely that an advance of ½ per cent. might be obtained. Short first-class acceptances continue to sell at six per cent.; and the established commission houses on the Stock Exchange find no difficulty in obtaining money on call at the same rate, or even 5½ on State or Federal securities. The feeling among money brokers is that there ought to be, and there will be shortly, an advance of rates; but thus far it seems pretty hard to get prices up.

The Wheat market opened quite firm this morning, and several sales were made early at an advance of ½c above yesterday's quotations; but on 'Change it weakened under an advance in freight and dull news from New York, and declined 1@1½c on Spring grades. Winter grades, however, were in active request for the Pittsburgh and Buffalo markets, and Red advanced 1@2c. About 120,000 bushels of all kinds changed hands at 90@92c for No. 1 Red; 81@82c for No. 2 Red; 91c for No. 2 White; 79@80c for No. 1 Spring; 77@79c for No. 2 Spring; and 73½@74c for Rejected—the market closing weak at the inside quotations for Spring, and firm for Winter. It will be seen from the tables above, that the shipments of wheat to-day were large—148,000 bushels. The Flour market was very firm, and buyers more readily acceded to the advance demanded and partially established yesterday. About 25,000 barrels were sold at $4.87½@5.25 for White Winter brands; $4.30@4.50 for Red Winter; $4.25 for Winter Super; $3.65@4.28 for low grade to choice Spring Extras; and $3.25@3.50 for Spring Super. Corn in fair demand; but buyers were less anxious to pay extreme rates. About 12,000 bushels changed hands at 72c for No. 2, and 73½@75c for No. 1—the latter figure for a round lot of 10,000 bushels. Oats were very quiet, and prices a shade lower. About 3,500 bushels were sold at 30@31c in store, according to location. Rye firm and in good request at 62@63c in store. There is a continued good inquiry for Barley, and the advance of yesterday was fully sustained. About 8,000 bushels were sold in lots at 57c for No. 2, and 64@65c for No. 1 in store—principally the latter figure. Timothy Seed quiet, with less offering, and but little disposition to operate among buyers. Sales to-day range from $2.10@2.11c for prime. Highwines firm at 26½c. Alcohol, advanced to 56c. Hides steady. Nothing doing in Provisions.

The scarcity of vessels caused an advance of 1c per bushel in freights to-day. Vessels took wheat to Buffalo at 7c, and a propeller at 7½c; wheat to Thorold at 6½c. At the close vessels were being held at 7½@7¾c for wheat to Buffalo.

GRAIN BURNED.—At Clyde, N. Y., 12,000 bu. wheat, barley and malt, were destroyed by the burning of a grain warehouse.

GRAIN AFLOAT FOR OSWEGO.—On the 22d inst., there was afloat for Oswego, 337,061 bu. wheat and 12,047 bu. corn.

ST. LOUIS, Sept. 27.—Receipts, 21,766 sks wheat, 1,407 sks corn, 7,522 sks oats, 616 sks rye, 1,364 sks barley. Wheat buoyant, with sales at 65@84c for spring, and 75c to $1.12 for winter. Corn, 75 to 80c. Oats, 40 to 46c. Barley, 50 to 65c. Rye, 63c. Whisky, 26½c. Timothy seed, $2.20. Mess pork, $13,75 to $14. Super flour, $4.05 to $4.20.

CINCINNATI, September 28.—Receipts, 2774 bbls flour; no corn; 1852 bus wheat; 540 bus oats; 510 bus barley. The *Gazette* of this morning says:

There was more activity in the flour market to-day, with indications of a speculative feeling, and prices advanced 10c per bbl, closing at $4.75@4.80 for superfine, and 4.90@5.35 for extra. In New York prices advanced 10@15 per bbl., but our quotations are still close upon the rates current there, the comparison being as follows:

New York	$5.25@5 69	
Cincinnati	4.75@4 80	
Margin	0.55	0.89

The margin would not cover the cost of shipment, by considerable, but this is not the point that engages the attention of parties disposed to invest in this market. Higher prices, it is expected, will prevail within the next ninety days, and operations are based upon this anticipation. Wheat was in moderate demand at previous prices. Receipts continue light. Corn advanced to 80c. We learn that country distillers are paying 50c per bushel for corn in the field—a handsome price for the new crop. Barley is in moderate demand at 65@67c for good spring to prime fall. Oats have advanced to 48@50c. Whisky advanced to 25c, with an active demand.

BOSTON, Sept. 27.—Receipts, 4,479 bbls flour; 932 bu corn; 2,500 bu oats. Corn firm but quiet at 98c to $1.00. Oats, 46c. Rye 85c.

NEW YORK, Sept. 27.—Receipts, 29,459 bbls flour; 63,208 bu wheat; 34,000 bu corn; 56,695 bu oats; 5,685 bu rye.

OSWEGO—Sept. 26.—Receipts, 339 brls flour; 28,648 bu wheat; 30,891 bu barley; 1,400 bu rye. Since our last report there has been a good demand for wheat, chiefly spring, but owing to the continued scarcity of this description on the spot, sales to a fair extent have been effected for future delivery. Market firm. Sales 4,500 bu prime white Canadian at $1.14; 3,600 bu Milwaukee club at private terms; 16,800 bu Chicago spring No 2 at 89c, and 11,000 bu do at 90c, the two latter to arrive. Corn very scarce and wanted. Barley without material change. Sales 4,000 bu Canadian at 82c, and 4,684 bu do at 83c to arrive. Rye in demand, with sales of 5,500 bu at 72c afloat and in store. Oats nominal; none in market.

The British Corn Trade.

[From the Mark Lane Express, Sept. 12.]

The broken weather of the past week has prevented the entire completion of the corn harvest, and done some injury to the second cut of grass, which has proved abundant. The fall of rain, though so frequent since May, has proved insufficient to replenish the wells in many places. In some localities they are either very low or entirely dry, the subsoil and rapid growth of vegetation having absorbed the small surplus. With all the damage done by the storms, there must have been a severe failure as respects harvest, had not the rain been both timely and abundant. The surface of the soil, nevertheless, looks unusually verdant, mangolds and turnips show plenty of feed, and there is good provision for keep, notwithstanding the reappearance of disease among potatoes.

The northern parts of this island, as well as of Germany, appear to have benefitted by the great heat of July, in respect to their Wheat crop and its extra fine quality; while the south, both here and in France, as well as in Italy, has suffered. In Ammerica, also, it would appear that, notwithstanding the over produce, fine quality is scarce, and the tone of the markets both here and at Odessa has improved. Our own markets being still well supplied have not yet recovered. Old wheat has not receded in value, and fine new has only slightly given way; but the bulk, being inferior, has been difficult of sale, with prices irregular. The averages may now be expected from recent sales to reach the lowest point of last year, and were there fears of American imports, still lower rates might be in prospect. Already, however, growers in the United States are said to be holding back for better markets, and New York supplies do not yet equal the demand.

The arrivals off the coast since Sept. 1 have been 75, of which 21 were wheat and 40 Maize; and the business transacted has been as follows: 8 cargoes of wheat, 2 of Marianopoli, and 1 Berdianski at 43s 9d, 3 Taganrog Ghirka at 42s, 1 Polish Odessa at 41s 3d, 1 Galatz at 38s, 20 cargoes of maize at 23s to 28s 9, 3 cargoes of barley at 22s to 23 1½d pr qr.

The sales noted last week were 88,577 qrs. Wheat at 41s, against 101,510 qrs. last year. The London averages were 43s 3d on 4,009 qrs. The imports into the principal ports of Great Britain for the week ending August 31, in Wheat and Flour, were equal to 47,008 qrs.

The Scotch markets have been heavy and lower for Wheat and Oats, but Barley has somewhat improved.

In Ireland, the potato disease is more confirmed. Native wheat, at Dublin, though in good supply, moved off freely at former rates, and barley was somewhat higher, but oats declined 6d per bbl. Irish wheat at Waterford has been in demand at 3d to 6d per bbl advance for good qualities, but flour was rather lower. Oats being in small quantity, obtained 3d to 6d per bbl more for completion of cargoes. Barley declined 6d per bbl. Maize was in better request. At Cork foreign wheat was dull, but oats, though in greater plenty, were 2d to 3d per bbl dearer.

STEAM ENGINES, BOILERS, &c.

The subscribers having obtained the agency for the sale of Steam Engines, and Boilers, from the Manufactory of

GOULDING, BAGLEY & SEWELL, OF WATERTOWN N. Y.,

would invite the attention of purchasers to their superior merits of style, workmanship and powers; also, their very low prices. The following is a list of prices of Engine and Boiler, together with Heater, Water and Steam Pipes, Cocks, Valves, Arch Castings and Grates, complete and ready for use, delivered in Chicago:

5 horse power	$500	20 horse power	$1,250
6 "	575	25 "	1,500
8 "	725	30 "	1,675
10 "	800	35 "	2,000
12 "	900	40 "	2,300
16 "	1100		

and in like proportion for larger sizes as required.

Every Engine is furnished with

Judson's Patent Governor Valve

For Flour Mills. We confidently recommend them as superior to any other style of Engine, and we can

Save from 25 to 50 per cent. in Fuel

Over the usual class of Boilers in use in the West. We shall keep an assortment of different sizes at our establishment where they may be examined and the necessary information obtained regarding them. Competent men will, if desired, be furnished to set up and start Engines in any part of the country. We also supply

WATER WHEELS, SHAFTING, GEARING, &c.

At very Low Figures.

Railroads.

MICHIGAN SOUTHERN AND LAKE SHORE RAILROAD. Season Arrangement, 1859, takes effect on and after April 3d.

Great Through Route to New York, Boston, Philadelphia, Baltimore, Washington, Springfield, Worcester, Portland, Quebec; Detroit, Suspension Bridge, Niagara Falls, Buffalo, Dunkirk, Albany, Rutland, Montreal, Toledo, Cleveland, Pittsburgh, Harrisburgh, Wheeling, Syracuse, Troy, Burlington, and all the points in Pennsylvania, New York and the New England States.

6:00 am. Mail and Accommodation, via old Michigan Line, daily, Sundays excepted, reaching Toledo at 4:25 pm, connecting at Adrian with the train reaching Detroit at 7:15 pm, connecting with trains on Great Western R. R. Line.

8:00 am. New York Express (daily except Sunday) via Goshen Air Line, reach Toledo at 4:35 pm, and Detroit direct at 7:15 in time to connect with trains on Great Western Railroad Eastward, and with all points interior in Canada.

8:00 pm. New York and Boston Express (daily, Saturdays excepted), via old Michigan road, reaches Toledo at 5:00 am, and Detroit 11:16, connecting with 7:30 pm train on Great Western R.R.

Connection made at Clyde and Monroeville for all points interior in Southern and Middle Ohio. Direct connections made at Cleveland with trains for Pittsburgh, Philadelphia, and Baltimore, making as quick time as any other route.

WOODRUFF'S PATENT SLEEPING CARS accompany all night trains on this route to New York and Boston. All trains for summer are newly fitted with Ventilators and Dusters.

STEAMER CITY OF BUFFALO,

A. D. PERKINS, Commander.

—AND—

WESTERN METROPOLIS, W. T. PEASE, Commander,

Form an Evening Line between Cleveland and Buffalo.

One of the above magnificent boats will leave the C. C. and C. Railroad Dock, Cleveland, every evening (Sundays excepted), at 8 o'clock, on the arrival of the trains from the South and West, making a sure connection at Buffalo, with the morning trains on the New York Central and Buffalo, New York and Erie Railroads, or Niagara Falls, Rochester, Syracuse, Rome, Utica, Albany, Corning, Elmira, Oswego, New York and Boston.

It is useless to speak elaborately of the above boats, being already well known to the travelling public as in all respects first class, commodious and safe.

Thus rendering a summer trip to New York or any point east of Buffalo, the most desirable of any that could be planned.

Tickets can be had at all Ticket offices in the West, and at the Company's office under the Revere House, corner of Randolph and Dearborn streets, and at the depot.

M. GRAY, General Western Agent.
JOHN D. CAMPBELL Gen. Supt.

PITTSBURGH, FORT WAYNE AND CHICAGO RAILROAD.

Now completed and cars run from Chicago to Pittsburgh without change, connecting with the great

PENNSYLVANIA CENTRAL RAILROAD

To New York, Philadelphia, Baltimore and Washington City, and all the interior towns of Pennsylvania, New Jersey, New York, Maryland, &c.

Merchants, by taking this route, will have the benefit of all the Eastern market at no additional cost.

Baggage checked through.

Trains leave the depot, corner of Canal and Van Buren streets, West Side, as follows:

7:20 A. M.—Morning Express, daily (Sundays excepted.)
7:30 P. M.—Night Express, daily (Saturdays excepted.)

Connecting at Crestline with Cleveland and Lake Shore Railroad to Dunkirk, Buffalo, Niagara Falls, New York and Boston, and all interior towns of New England, via New York Central and New York and Erie Railroads.

Also, south to Columbus, Zanesville, Newark, Mount Vernon, Steubenville, Wheeling, and interior towns of Ohio and Virginia.

The above trains connect at Forest with trains on Mad River Road to Springfield, Urbana, Dayton and Cincinnati. Also with trains at Lima for Dayton and Cincinnati direct.

FARE AS LOW AS BY ANY OTHER ROUTE.

Passengers bound East will find this route both pleasant and agreeable, passing through many of the largest and finest cities in the United States.

Passengers arriving at Chicago, on any of the roads will find attentive check agents at the depots, to receive checks and convey baggage free of charge to the Pittsburgh and Chicago cars. Sleeping cars accompany each train.

Tickets for sale at all the principal Ticket Offices in the West, and at the Company's Office, corner of Randolph and Dearborn streets, opposite the Revere House, and at the Depot West Side, corner of Canal and Van Buren streets, Chicago.

Be particular to ask for Fort Wayne.

PENNSYLVANIA CENTRAL RAILROAD.

The Capacity of this Road is now equal to any in the Country.

THREE THROUGH PASSENGER TRAINS BETWEEN PITTSBURGH AND PHILADELPHIA.

Connecting Direct in the Union Depot at Pittsburgh with Through Trains from all Western Cities for Philadelphia, New York, Boston, Baltimore and Washington City; thus furnishing facilities for the transportation of passengers unsurpassed for speed and comfort by any other route.

Express and Fast Lines run through to Philadelphia without change of Cars or Conductors.

Smoking Cars are attached to each Train; Woodruff's Sleeping Cars to Express and Fast Trains. The Express runs daily, Mail and Fast Line Sundays excepted. Three daily trains connect direct for New York. Express and Fast Line connect for Baltimore and Washington.

Trains connect at Pittsburgh with the 3 A.M. Express. Arrive in Philadelphia or Baltimore at 5 P.M. And in New York at 10:20 P.M.

Trains connect at Pittsburgh with the 5 P.M. Fast Line. Arrive in Philadelphia or Baltimore at 8 A.M. and in New York at 2:30 P.M. Mail Trains leave Pittsburgh at 8 A.M., arriving at Philadelphia 11 P.M., New York 4:30 A.M.

Six daily trains between Philadelphia and New York; two daily trains between New York and Boston. Through tickets and Rail are good on either of the above trains.

Boat Tickets to Boston are good via Norwich, Fall River or Stonington Lines.

Tickets Eastward may be obtained at any of the important Railroad Offices in the West; also, on board any of the regular line of steamers on the Mississippi or Ohio rivers; and tickets Westward at the offices of the Company in Boston, New York, Baltimore or Philadelphia.

FARE ALWAYS AS LOW AS BY ANY OTHER ROUTE.

Ask for Tickets by Pittsburgh.

The completion of the Western connections of the Pennsylvania Railroad to Chicago makes this the

DIRECT LINE BETWEEN THE EAST AND THE GREAT NORTHWEST.

The connecting of tracts by the Railroad Bridge at Pittsburgh, avoiding all drayage or ferriage of freight, together with the saving of time, are advantages readily appreciated by shippers of freight and the travelling public.

Parties shipping Eastward will find it to their advantage to ship by this route.

For freight contracts or shipping directions, apply to or address either of the following Agents of the Company:

D. A. Stewart, Pittsburgh; Doyle & Co., Steubenville, O.; H. S. Pierce & Co., Zanesville, O.; J. J. Johnson, Ripley, O.; R. Koontz, Alton, Ill.; Murphy & Ware, Dubuque, Iowa; or to Freight Agents of Railroads at different points in the West.

The greatest facilities offered for the protection and speedy transportation of live stock, and good accommodations, with usual privileges for persons travelling in charge thereof.

FREIGHTS WESTWARD.

By this Route Freights of all descriptions can be forwarded from Philadelphia, New York, Boston or Baltimore, to any point on the railroads of Ohio, Kentucky, Indiana, Illinois, Wisconsin, Iowa or Missouri, by rail direct.

The Pennsylvania Railroad also connects at Pittsburgh with steamers, by which goods can be forwarded to any port on the Ohio, Muskingum, Kentucky, Tennessee, Cumberland, Illinois, Mississippi, Wisconsin, Missouri, Kansas, Arkansas and Red Rivers; and at Cleveland, Sandusky and Chicago with steamers to all ports on the North-Western Lakes.

Merchants and Shippers entrusting the transportation of their freight to this Company, can rely with confidence on its speedy transit.

The Rates of Freight to any point in the West by the Pennsylvania Railroad are at all times as favorable as are charged by other Railroad Companies.

Be particular to mark packages "via Penn. R. R."

Merchants in the West ordering goods from the East, will do well to direct them to be shipped by this route.

Parties attending to their own shipments from the East will find it to their interest to call on the Agents of this Company at the following places before shipping; or let ers addressed to either of them upon the subject of Freights will meet with prompt attention.
